BEFORE ME, the Subscriber, personally appeared Joseph L. Kirby, of Pima County, Arizona, known to me, and who after being duly sworn states:

THAT he has personal knowledge of the matters set forth herein, and that said matters are true and correct.

THAT on September 24, 1980, Duval Corporation was granted a Deferment of Annual Assessment Work for the period commencing September 1, 1980 and ending August 30, 1981. Additionally, on June 7, 1982, a Renewal of Deferment of Annual Assessment Work was granted for the period commencing September 1, 1981, and ending at noon, September 1, 1982. These deferments were requested and granted because of the closing of the area in the vicinity of the active volcano Mount St. Helens. All of the claims listed on Exhibit "A" were within the Red Zone Area, access to which was denied by the U. S. Forest Service and the State of Washington. Upon the lifting of the Red Zone area, Duval Corporation performed at least \$200 worth of work and improvement between September 21, 1981, through September 28, 1981, and June 15, 1982, through July 28, 1982, for each of the following claims situated in the Green River Mining District, Lewis and Skamania Counties, Washington, the location notices being recorded in the records of said County as indicated below. This work of at least \$200 per claim applies to the 1979-1980 assessment year, as well as the 1981-1982 assessment year.
