Locator

NOTICE — This notice should be placed at each center end and each corner of the claim and a copy thereof must be recorded.

[Redacted] Describe the claim accurately with reference to some "natural" object or permanent monument, and if on surveyed land according to government survey, and mark the boundaries on the ground so they may be readily traced.

Lode locations may include fifteen hundred feet on the courses of the ledge, together with three hundred feet on each side of the middle of the vein.

With or without a pen, necessary but advisable. Fill out all blanks with ink or indelible pencil.

A black and white photograph of a geological sample. In the center, there is a prominent, light-colored, elongated structure labeled "Vein". This vein is surrounded by a darker, more granular material. The word "Vein" is printed in a bold, sans-serif font directly over the central feature.

Diagram explaining mode of Staking claim.
