1. History of Corner Establishment and Subsequent Restoration; description of Evidence Found:

Found a 2" IP at an old fence corner. The 2" IP fits the GLO creek call to the South. In February 1910, C.E. Linn, county surveyor, traversed from the East 1/4 corner of Sec. 23, to this corner. He does not note what he found at this corner. One of the neighbors said that H. Berge had told them he built his North fence right on the line. This appears to be true because C. E. Linn was doing survey work for Berge in 1911. Linn does not note who he was working for in the Feb. 1910 survey. We tied the fence 1600 feet East of the West quarter corner of Section 23 and it was within 2 feet of being on line. We accept this pipe and fence corner as being the best evidence of the original corner.

2. Describe Monument, Accessories and Corollary Data to Perpetuate this Corner Location. Diagram corner and indicate meridian and reference to map of record. Surveyor's Field Book No. Page No. Date of work

Inside the 2" IP, we set a 3/4" IP with brass cap.

Also, set were 3 RP's:

12" Douglas fir with railroad spike, 3 blazes and metal tag

North 07° East, 35.22 feet.

8" Douglas fir with railroad spike, 3 blazes and metal tag

North 49° East, 22.03 feet.

16" Douglas fir with railroad spike, 3 blazes and metal tag

South 42° West, 36.64 feet.
