During the 1984 assessment year three man days labor was performed on the claim. This consisted of removing overburden washed in by high water and extracting material from the Quartz vein for analysis and assay. The labor was performed by Russell A. Niblock, Ted Martin and Russell A Niblock Jr.

With labor estimated at \$60.00 per man day assessment work for 1984 was \$ 180.00 excluding indirect costs. This Firlock II claim is contiguous with the original Firlock Lode claim (see County Auditor file # 37160 Mines Vol. M, P 963-64; B.L.M. serial # ORMC 8278, T 9 N, R 9 E, W.M.) and the aggregate expenditure was \$ 540.00.

It is planned to substantially increase prospecting and mining activities after the U.S. Forest Service Boulder Creek timber sale and road are completed. The road provides excellent access to the claim with economical advantages.
