**APPLICATION FOR CLASSIFICATION AS OPEN SPACE LAND OR TIMBER LAND
FOR CURRENT USE ASSESSMENT UNDER RCW 84.34**

FILE WITH THE COUNTY LEGISLATIVE AUTHORITY

Name of Applicant Joseph D. Huskey / Jeanne E. Huskey 835-3777
 Address MPO 371 - Street, Rd Nasouah, Wa 98671

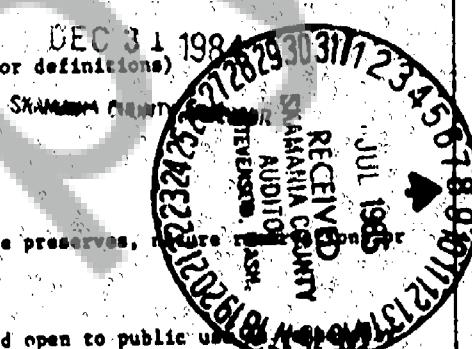

Property Location

1. Interest in property:	<input checked="" type="checkbox"/> Fee Owner	<input type="checkbox"/> Contract Purchaser	<input type="checkbox"/> Other (Describe) _____
2. Assessor's parcel or account number	<u>1-5-9-604</u>		
Legal description of land to be classified <u>X</u>			
3. What land classification is being applied for? <input type="checkbox"/> Open Space <input checked="" type="checkbox"/> Timber Land			
NOTE: A single application may be made on open space and timber land but a legal description must be furnished for the area of each different classification.			
4. Total acres	<u>9.54</u>		
5. OPEN SPACE CLASSIFICATION	Number of acres <u>8.90</u>		
6. Indicate what category of open space this land will qualify for: (See back for definitions)			
<input type="checkbox"/> Open space zoning <input type="checkbox"/> Conserve and enhance natural or scenic resources <input type="checkbox"/> Protect streams or water supply <input type="checkbox"/> Promote conservation of soils, wetlands, beaches or tidal marshes <input type="checkbox"/> Enhance value to public of abutting or neighboring parks, forests, wildlife preserves, nature sanctuaries or other open space <input type="checkbox"/> Preserve historic sites <input type="checkbox"/> Retain in natural state tracts of five (5) or more acres in urban areas and open to public use required by granting authority			
7. TIMBER LAND CLASSIFICATION	Number of acres <u>8.50</u>		
8. Do you have a timber management plan on this property?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No	If yes, submit a copy of that plan with this application.
9. If you have no timber management plan, specifically detail the use of this property to show that it "is devoted primarily to the growth and harvest of forest crops".	<u>8.50 acres per acre</u>		
10. Describe the present current use of each parcel of land that is the subject of this application.	<u>Buy 4 1/2 acres of wooded area & 1/2 of clearing, all fenced</u>		
11. Describe the present improvements on this property (buildings, etc.)	<u>All land fenced with house & garage.</u>		
12. Attach a map of the property to show an outline of current uses of the property and indicate location of all buildings.			
13. Is this land subject to a lease or agreement which permits any other use than its present use?	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No	If yes, attach a copy of the lease or agreement.

NOTICE: The assessor may require owners to submit pertinent data regarding the use of classified land.

OPEN SPACE LAND MEANS:

- (a) Any land area so designated by an official comprehensive land use plan adopted by any city or county and zoned accordingly, or
(b) Any land area, the preservation of which in its present use would (i) conserve and enhance natural or scenic resources, or (ii) protect streams or water supply, (iii) promote conservation of soils, wetlands, beaches or tidal marshes, or (iv) enhance the value to the public of abutting or neighboring parks, forests, wildlife preserves, nature reservations or sanctuaries or other open space, or (v) enhance recreation opportunities or (vi) preserve historic sites, or (vii) retain in its natural state tracts of land not less than five acres situated in an urban area and open to public use on such conditions as may be reasonably required by the legislative body granting the open space classification.

TIMBER LAND MEANS:

Land in any contiguous ownership of five or more acres which is devoted primarily to the growth and harvest of forest crops and which is not classified as reforestation land pursuant to Chapter 84.28 RCW or as forest land under Chapter 84.33. Timber land means the land only.

**STATEMENT OF ADDITIONAL TAX, INTEREST AND PENALTY DUE
UPON REMOVAL FROM CLASSIFICATION UNDER RCW 84.34**

1. Upon removal an additional tax shall be imposed which shall be due and payable to the county treasurer 30 days after removal or upon sale or transfer unless the new owner has signed the Notice of Continuancy. The additional tax shall be the sum of the following:
 - (a) The difference between the property tax paid as "Open Space Land" or "Timber Land" and the amount of property tax otherwise due and payable for the seven years last past had the land not been so classified; plus
 - (b) Interest upon the amounts of the difference (a), paid at the same statutory rate charged on the delinquent property taxes.
 - (c) A penalty of 20% shall be applied to the additional tax if the classified land is applied to some other use, except through compliance with the property owner's request for removal process, or except as a result of those conditions listed in (2) below.
2. The additional tax, interest and penalty specified in (1) above, shall not be imposed if the removal resulted solely from:
 - (a) Transfer to a government entity in exchange for other land located within the State of Washington.
 - (b) A taking through the exercise of the power of eminent domain, or sale or transfer to an entity having the power of eminent domain in anticipation of the exercise of such power.
 - (c) Sale or transfer of land within two years after the death of the owner of at least a fifty percent interest in such land.
 - (d) A natural disaster such as a flood, windstorm, earthquake, or other such calamity rather than by virtue of the act of the landowner changing the use of such property.
 - (e) Official action by an agency of the State of Washington or by the county or city within which the land is located which disallows the present use of such land.
 - (f) Transfer to a church and such land would qualify for property tax exemption pursuant to RCW 84.36.020.
 - (g) Acquisition of property interests by State agencies or agencies or organizations qualified under RCW 84.34.210 and 84.04.130 (See RCW 84.34.108(5g)).

AFFIRMATION

As owner(s) of the land described in this application, I hereby indicate by my signature that I am aware of the potential tax liability involved when the land ceases to be classified under the provisions of RCW 84.34. I also declare under the penalties for false swearing that this application and any accompanying documents have been examined by me to the best of my knowledge it is a true, correct and complete statement.

Subscribed and sworn to before me this 31st day of December, 1984.

SERVICE FORESTRY MANAGEMENT PLAN
For Joe Hurley Tree Farm
Service Forestry No.
Section 9, Township 1 North, Range 5 East, W.M.

Landowners Management Objectives

Mr. Hurley wishes to plant 1.5 additional acres to create 6 acres of forest land to reduce his property taxes. In addition, he wants to establish some erosion control on the lower portion of his pasture land.

Grass Land Site Preparation

Field number 2. The soil on this site is classified Skamania Variant Silt Loam. The first step is to work the grass up or into the soil to do away with the mouse habitat and consequently the mice.

A good job of disking would do this. This work should be done as soon as the soil dries enough that you can get on it with equipment. If this cannot be done before April 20th, planting will have to be postponed until 1986, as the trees need to be planted before the end of April. In this case, the grass will need to be worked in the fall of 1985.

But, let's assume that we can get the area worked early in April or before.

Planting

Planting should be done during the months of March and April or after the cold, dry winter weather is over. Seedlings are available from Department of Natural Resources, Webster State Forest Nursery, Olympia, Washington 98504, phone (206) 573-5305.

Seedlings should be ordered by December 1. Small orders can generally be included with a shipment of state trees to the Area office.

Seedlings should be kept cool and out of the sun during transportation and storage before planting.

I recommend planting 436 Douglas fir seedlings to the acre or 650 trees total, for 1.5 acres, which is about 10 by 10 foot spacing. Your tree farm is in Seed Zone 042, elevation 1,000 feet. The seedlings should be planted with the roots spread out a little and the ends of the roots pointing down. A gentle but firm step next to the seedling will pack the soil around the roots and settle the tree in its new home.

After Planting "Grass Land"

A week or two after planting you will need to spray the area to control the grass. Atrazine at five pounds of "80% product" per acre should give you control of most of the grass. You may have to spray again in the spring of 1986, but after two years of growth the trees should be too big for the mice to damage.

Care of the Young Plantation

In about two years the stand should be looked at to determine what animal or brush control will be needed.

At about age ten the stand should be reexamined to see if it will need to be precommercially thinned.
