

"SNUG Harbor Facility"

- 14 - Continued - Between This And ± Rocks 13 Would Have Been Washed Away Had I Not Have Partially Rip-Rapped It Before Returning To Sea In 1944.
- 15 Original Meander Line of Columbia River at 70-72'00" AT The Bonneville Dam. All marked Green Washed Away 1943-1944
- 16 Pump House - Sillage From Columbia River - Irrigation
Roads ~~|||||~~ All Roads Only
- Note - Nearly All Components for Buildings - Lumber, Timbers, Windows, Doors, Corrugated Iron, Conduit, Water Pipe & ETC - All Salvaged from & with The Consent of The Contractors of the Builders of the Bonneville Dam, - Which Otherwise Would have Been Burned - it is now about 35 years Old. Most of the Stone for Stone Work Came from Rock Excavated from My Hill - or was picked From Stone Hauled from Wind Mountain - Costing 10cts per yard. We picked the Best Flat Rock For This From our Rip-Rapping Material. But when The Assessor Looks At this He thinks it is Cold-Bricks
