 OPMC 8278

During the 1986 assessment year (9/1/85 to 9/1/86) four man days labor was performed on the claim. The work consisted of drainage excavation for the primary lower tunnel and prospecting excavation in the area near the original upper tunnel. The labor was performed by Russell A. Niblock and Ted R. Martin.

With labor estimated at \$60.00 per man day this indicates \$240.00 excluding indirect costs such as travel, resurvey and reposting.

It is planned to substantially increase mining activities after the U.S. Forest Service Boulder Creek timber sale and road are completed. The road, as located, crosses the upper part of the claim and will provide excellent access with economical advantages.
