During the 1987 assessment year (9/1/86 to 9/1/87) three man days labor was performed on the claim. The work consisted of excavating material from a Quartz vein for analysis and gathering samples from the creek bed downstream from the vein. The labor was performed by Russell A. Niblock and Ted R. Martin.

With labor estimated at \$60.00 per man day assessment work was \$180.00 excluding indirect costs. This Firlock II claim is contiguous with the original Firlock Lode claim (see County Auditor file #87160 Mines Vol M, P-963-64; B.L.M. serial #ORMC 8278,) and the aggregate expenditure on the contiguous claims was \$480.00.

It is planned to substantially increase prospecting and mining activities after the U.S. Forest Service Boulder Creek Timber Sale and road are completed. The road will provide excellent access to the claim with economical advantages.
