During the 1988 assessment year (9/1/87 to 9/1/88) six man days labor was performed on the claim. The work consisted of drainage excavation and prospecting excavation in and adjacent to the primary lower tunnel. Material was removed for assay. The work was performed By Russell A. Niblock, Ted R. Martin and Elena Martin.

With labor estimated at \$60.00 per man day this indicates \$360.00 excluding indirect costs such as travel, resurvey and reposting. The long awaited U.S. Forest Service Boulder Creek Timber Sale has been made and as soon as the road is open to the public mining activities will be expanded.
