Part II - Reservations of Rights by Grantor

All right, title and interest in property is vested in the United States except that specifically and expressly reserved unto the Grantor. The rights reserved with associated terms and conditions are as follows:

A. Record title to the Property.

B. The present pre-existing regular uses of the property, including ownership and continued residential use of the existing structures and associated domestic uses such as gardening and landscaping within the curtilage. As of the date of this instrument, the pre-existing regular use in the vicinity of the modular dwelling is as a five acre tract for homesite purposes. The existing open area immediately to the east of the modular home, approximately twelve acres, is in use for pasture and cropping of hay and, other than the right to build an on-site constructed dwelling as acknowledged in paragraph C below, shall remain in those uses in the future. The remaining acreage is wooded hillside land with two acres south of the modular home and the balance on the south slope of Lawton Creek.

C. The right to replace the existing four-bedroom modular home with a new structure built on-site within the area shown on the attached "EXHIBIT A" is authorized. The size of the authorized on-site new structure shall not exceed 4,100 sq. feet measured within 40' x 82' exterior dimensions, and shall be limited to two stories not exceeding 36 feet in height. Architectural design and appearance of the new dwelling shall be submitted in advance for review and approval by the Forest Service. Upon completion, the modular home is to be removed from the Property.

D. The existing structures may be remodeled, repaired or replaced so long as the remodeling, repairs or replacement are substantially in and of the same location, size and architectural design. Proposals for changes in the

architectural design and appearances of the structures shall be submitted in advance for review and approval by the Forest Service. Other than the residence reserved in paragraph C, there shall not be an increase in the number of dwellings or a change in the existing uses within the parcel. Structures accessory to existing facilities, such as fences, sheds and the like, which are commonly used in the area for such residential and associated domestic uses, will be permitted with the prior approval of the Forest Service.

E. Agricultural uses in accordance with good husbandry practices are limited to horse and cattle raising, pasture, cropland, small woodlots, orchards, Christmas tree farms, and groves. Horses and cattle production on the Property shall be limited to ten annual animal units use in conjunction with other lands held by the Grantor, it being the intent not to engage in intensive feed lot production. Structures accessory to existing facilities, such as fences, sheds and the like, commonly used in the area for agricultural uses will be permitted with the prior approval of the Forest Service.

F. Domestic use of dead, dying or down trees for firewood or other uses on the property. The cutting and disposal of scrub trees, brush, and similar material for aesthetic and landscaping purposes is permitted.

G. Except for the timber use listed above, no trees shall be removed from the land in the easement area except those authorized in writing by the Forest Service.

Part III - General Provisions

A. A general purpose of this easement is to preserve and maintain the regular uses of the property as they existed at the time of this instrument except for rights specifically reserved in Part II. "EXHIBIT A", which is attached and appended to this instrument, generally depicts the number and location of structures and facilities as of the date of this instrument.

B. For any activity by the Grantor which requires prior approval by the Forest Service, such approval will be at the sole discretion of the authorized Forest Service official. In general, approval will be determined on the basis of whether the proposed activity or improvement is compatible with the conservation of the scenic, cultural, recreational, and natural resources of the Columbia River Gorge National Scenic Area. In making such a determination, the Forest Service shall utilize the same standards of compatibility as are applied to activities on private lands elsewhere within the Special Management Areas of the Columbia River Gorge National Scenic Area. Any activity determined to be incompatible shall be prohibited and shall be construed as a right having been acquired by the United States pursuant to this instrument.

C. The Grantor has an affirmative obligation to make reasonable repairs and reasonably maintain the Property, and to preserve its existing aesthetic characteristics. This obligation includes, but is not limited to, not placing any signs or billboards on the Property (except for sale or rent, no

trespassing, or for identifying the owner), and not allowing the accumulation of trash, debris or other unsightly materials. Buildings and grounds will be reasonably maintained in an attractive appearance, and buildings will utilize, to the extent possible, natural, grey or earth-toned colors and nonreflective finishes and materials. Dead or dying trees and shrubs shall be reasonably disposed of or pruned in accordance with good husbandry practices. Grantors' practices existing on the date of this instrument shall be deemed to comply with the requirements of this paragraph. Grantor shall not be required by this instrument to repaint or change colors or finishes on existing structures or buildings, but will confirm with this provision when such activities are undertaken in the future.

D. Public use and entry is not permitted on the Property. However, representatives and agents of the United States are empowered to make reasonable entry upon such land for purposes related to administering this instrument. The Grantor will be given 24 hours advance notice of any entry unto the Property by the agents or assigns of the United States, except for emergency situations where such advance notice as is practical will be given to Grantors. No authorization is granted to the United States for the entry into structures or personal property without the permission of the Grantor, their successors or assigns, except under applicable law.

E. This conveyance to the United States of America is authorized by federal law and is in furtherance of the purposes of Public Law 99-663 (100 Stat. 4274) which created the Columbia River Gorge National Scenic Area. However, any future disestablishment or other modification of the Columbia River Gorge National Scenic Area shall in no way affect the property rights acquired herein by the United States. The acquiring agency of the United States is the Forest Service, United States Department of Agriculture. Any rights acquired by the United States, including those expressly acquired in the name of the Forest Service, are fully assignable to any other entity by the Secretary of Agriculture or by Act of Congress.

F. Nothing in this deed shall prevent the Grantors, their successors and assigns, from selling or mortgaging the property subject to the rights acquired herein by the United States; provided, however, said property shall not be subdivided, or disposed of as smaller tracts.

G. All uses of the property, including those rights reserved in Part II by the Grantor, shall conform with all provisions which are or may be in effect of the Interim Guidelines promulgated by the Forest Service pursuant to section 10 of the Act, Guidelines for Land Use Ordinances issued pursuant to section 8 of the Act, and any zoning ordinances which may apply to this property. In the event that a specific provision of this easement is more restrictive on the use and development of the property than the above referenced Guidelines or ordinances, the provisions of this easement shall prevail.

H. All rights, title, and interests in the property not expressly and specifically reserved by the Grantor shall be deemed to be acquired by the United States, and uses of the property not specifically reserved shall be deemed prohibited.

I. The Grantor and the United States agree that any ambiguities regarding the terms and conditions of this easement shall be resolved in a manner which best effects the overall conservation and public purposes of Public Law 99-663.

J. The United States shall have the right to make surveys, plats, take photographs and prepare such other documentation as may be necessary or desirable to administer the provisions of this instrument. Any such map, plat or other suitable document may be recorded at the discretion of the Forest Service in the land records of the respective county wherein the property is located.

K. The provisions of this easement are enforceable in law or equity by the United States, its successors or assigns.

L. The term "Grantor" or "Grantors" shall apply to the present grantors, their heirs, successors or assigns.

TO HAVE AND TO HOLD, the herein described estate in land and rights unto the United States, its successors or assigns forever. The rights conveyed herein shall run with the land and constitute a perpetual servitude thereon. The Grantors covenant that they and their successors in interest will warrant and defend unto the United States the quiet and peaceable use and enjoyment of this land against all claims and demands.

IN WITNESS WHEREOF, the Grantors have hereunto set their hand and seal on the day and year first above written.
