situated in the Yellow Jacket District, Section 15, Township 10 North, Range 8 East, during the year ending the 1988 day of Aug. 14 to Sept. 3, 1988, for and on behalf of MARGARET E. PETERSON, the owner (or reputed owner) of said mining claim, in the sum and value of ONE-HUNDRED DOLLARS AND MORE-----Dollars (\$ 100.00);that such labor and improvements consisted of _____ feet of shaft, _____ feet of tunnel, Cave & 85 feet of open cut.

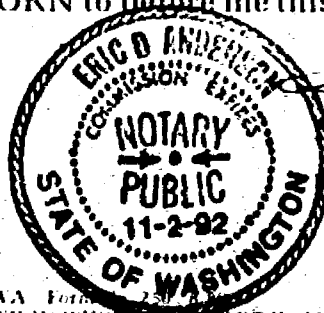

This Mineral Deposit lies along the McCoy stream, and is interrupted every year by high water and the winter elements, therefore must be re-worked and re-arranged each year. This is the reason for doing my assessment work in August and September, the McCoy stream is at it's lowest level at that time of year and presents much better -- working conditions.
