P. Lowry

in _____ Mining District, County of _____

State of Washington, between June 11, 1991, and August 30, 1991,
for the year ending September 1, 1991.*Such expenditure was made by or at the expense of Merle Davis

_____, owner (or one of the owners) of said claim, for the purpose of

complying with the law and holding said claim, and was made upon the Blue Jay and Blue Eagle claim and consisted of ore assay work - Production work for Hardrock Plant and are tested for recovery of Platinum and gold.Merle DavisDella Short

* Federal law requires that not less than \$100 worth of labor must be performed on improvements made on a mining claim annually to hold the possessory right to the claim. The period within which the work is required to be done commences on 12:01 o'clock (midnight) on the first day of September succeeding the date of location of the claim. The applicable state law should be examined to determine all requirements for an Affidavit of Proof of Labor on improvements and the time allowed for filing affidavits since requirements and time vary from state to state.

IMPORTANT NOTICE: A mining claim is deemed abandoned under 43 U.S. Code Sec. 1744, unless a copy of the affidavit required of an affidavit of assessment work performed, a notice of intention to hold a mining claim, or a detailed report under 30 U.S. Code Sec. 281 is also filed annually for registration with the state office of the Bureau of Land Management in the state where the claim is situated on or before December 30th of each year following the calendar year in which the claim was located. Because BLM recordation regulations change periodically, you should obtain recordation regulations from your local BLM office to determine effective requirements for mining claims. Additional regulations of the BLM and Forest Service may apply to the conducting of mining operations on national forest and BLM administered lands.

Subscribed and sworn to before me this 26th day of September, 1991.
