All right, title and interest in property is vested in the United States except that specifically and expressly reserved unto the Grantor. The rights reserved with associated terms and conditions are as follows:

A. Record title to the Property.

B. The present pre-existing regular uses of the property, including ownership and continued agricultural and woodlot uses, being 20.05 acres in farmland and woodlot. This includes existing improvements of a livestock barn and loft barn. The agricultural land and the barns with associated facilities are to be utilized for the raising of livestock, fruit, nuts, and berries.

C. The existing structures may be remodeled, repaired or replaced so long as remodeling, repairs, and replacement are substantially in and of the same location, size and architectural design. Proposals for changes in the architectural design and appearances of the structures shall be submitted in advance for review and approval by the Forest Service. There shall not be an increase in the number of structures or a change in the existing uses within the parcel. Structures accessory to existing facilities, such as fences, sheds, wells, utilities, and the like, which are commonly used in the area, will be permitted with the prior approval of the Forest Service.

D. Agricultural uses in accordance with good husbandry practices are limited to horse, cattle, and other livestock raising, pasture, cropland, small woodlots, orchards, bush fruits, Christmas tree farms, horticultural areas

(nurseries), and groves. Livestock production shall be limited to * head of horses or cattle, or their equivalent, per year, it being the intent not to engage in intensive feed lot production. *TO BE DECIDED IN ADMINISTRATIVE PLAN.

F. Conversion of acreage now in brush to agricultural use will be permitted with the prior approval of the Forest Service.

Part III - General Provisions

A. A general purpose of this easement is to preserve and maintain the regular uses of the property as they existed at the time of this instrument except for rights specifically reserved in Part II. "EXHIBIT A", consisting of 2 sheets, which is attached and appended to this instrument, generally depicts the number and location of structures and facilities as of the date of this instrument.

B. For any activity by the Grantor which requires prior approval by the Forest Service, such approval will be at the sole discretion of the authorized Forest Service official. In general, approval will be determined on the basis of whether the proposed activity or improvement is compatible with the conservation of the scenic, cultural, recreational, and natural resources of the Columbia River Gorge National Scenic Area. In making such a determination, the Forest Service shall utilize the same standards of compatibility as are applied to activities on private lands elsewhere within the Special Management Areas of the Columbia River Gorge National Scenic Area. Any activity determined to be incompatible shall be prohibited and shall be construed as a right having been acquired by the United States pursuant to this instrument.

C. The Grantor has an affirmative obligation to make reasonable repairs and reasonably maintain the Property, and to preserve its existing aesthetic characteristics. This obligation includes, but is not limited to, not placing any signs or billboards on the Property (except for sale or rent, no trespassing, or for identifying the owner), and not allowing the accumulation of trash, debris or other unsightly materials. Buildings and grounds will be reasonably maintained in an attractive appearance, and buildings will utilize, to the extent possible, natural, grey or earth-toned colors and nonreflective finishes and materials. Dead or dying trees and shrubs shall be reasonably disposed of or pruned in accordance with good husbandry practices. Grantors' practices existing on the date of this instrument shall be deemed to comply with the requirements of this paragraph. Grantor shall not be required by this instrument to repaint or change colors or finishes on existing structures or buildings, but will conform with this provision when such activities are undertaken in the future.

D. Public use and entry is not permitted on the Property. However, representatives and agents of the United States are empowered to make reasonable entry upon such land for purposes related to administering this instrument. The Grantor will be given 24 hours advance notice of any entry

No authorization is granted to the United States for the entry into structures or personal property without the permission of the Grantor, his successors or assigns, except under applicable law.

E. This conveyance to the United States of America is authorized by federal law and is in furtherance of the purposes of Public Law 99-663 (100 Stat. 4274), which created the Columbia River Gorge National Scenic Area. However, any future disestablishment or other modification of the Columbia River Gorge National Scenic Area shall in no way affect the property rights acquired herein by the United States. The acquiring agency of the United States is the Forest Service, United States Department of Agriculture. Any rights acquired by the United States, including those expressly acquired in the name of the Forest Service, are fully assignable to any other entity by the Secretary of Agriculture or by Act of Congress.

F. Nothing in this deed shall prevent the Grantor, his successors and assigns, from selling or mortgaging the property subject to the rights acquired herein by the United States; provided, however, said property shall not be subdivided, or disposed of as smaller tracts.

G. All uses of the property, including those rights reserved in Part II by the Grantor, shall conform with all provisions which are or may be in effect of the Interim Guidelines promulgated by the Forest Service pursuant to section 10 of the Act, Guidelines for Land Use Ordinances issued pursuant to section 8 of the Act, and any zoning ordinances which may apply to this property. In the event that a specific provision of this easement is more restrictive on the use and development of the property than the above referenced Guidelines or ordinances, the provisions of this easement shall prevail.

H. All rights, title, and interests in the property not expressly and specifically reserved by the Grantor shall be deemed to be acquired by the United States, and uses of the property not specifically reserved shall be deemed prohibited.

I. The Grantor and the United States agree that any ambiguities regarding the terms and conditions of this easement shall be resolved in a manner which best effects the overall conservation and public purpose of Public Law 99-663.

J. The United States shall have the right to make surveys, plats, take photographs, and prepare such other documentation as may be necessary or desirable to administer the provisions of this instrument. Any such map, plat, or other suitable document may be recorded at the discretion of the Forest Service in the land records of the respective county wherein the property is located.

K. The provisions of this easement are enforceable in law or equity by the United States, its successors or assigns.

L. The term "Grantor" or "Grantors" shall apply to the present grantor, his heirs, successors, or assigns.

TO HAVE AND TO HOLD, the herein described estate in land and rights unto the United States, its successors or assigns forever. The rights conveyed herein shall run with the land and constitute a perpetual servitude thereon. The Grantor covenant that he and his successors in interest will warrant and defend unto the United States the quiet and peaceable use and enjoyment of this land against all claims and demands.

IN WITNESS WHEREOF, the Grantor has hereunto set his hand and seal on the day and year first above written.
