## Farm Plan for Scott & Tom. Hall

Dear Glenda Kimmel,

Enclosed is a map which should help show you our farm plan. I have started to remove Some of the trees in the area marked in yellow. I plan on finishing this by early spring of 1989. I have worked out a deal with a neighbor to help me plant it in gress hay soon afterwards. Next I will start fercing the North and East boundaries. This is approximately 6,007 of new fence that needs to be constructed. I hope to have

this completed by late 1989.

After the outside boundaries are fenced, Several disecting fencing will be built to keep livestock in certain areas.or out of others.

Livestock now come into the picture. We plan on raising a breed of Cattle Called Limousin for commercial Sale.

The barn comes last which is the reason for needing to use the forest land for agricultural woodlots, to protect the cattle from the elements.

I hope that you will agree that a change in classification for this land would better fit my intended uses of it. Please Call me if you have intended uses or ...
any unanswered questions.
Sincerely State a Hall
Sincerely Jan m. Hall

Scott A. and Tami M. Hall Parcel #01 05 18 0 0 0302 00 containing 27.00 acres; 14.00 acres under Classified Forest Land and parcel #01 05 18 0 0 0301 00 containing 43.72 acres; 32.74 acres under Classified Forest Land; (includes 7.34 acres within the Scenic Easement.)

Current Use Farm/Ag management plan for 19 acres; 29.72 acres to remain under Classified Forest Land. Proposed changes:

It is my understanding, having talked with David O'Brien and Bob Starke, U.S.F.S., on November 4, 1988 in Hood River OR., that the above stated property with proper approval from the Department of Natural Resources and that of the United States Forest Service, will be able to follow the Washington State Forest Practices Act

Reference was made by Mr. O'Brien as to the lay of the land; growth and harvest of trees under the Classified Forest Land program would not be encumbered by the Scenic Act view shed restrictions.

Subject to future review by this office with concern to commercial use and income data to be required periodically from the property owner; and subject to any changes or added restrictions concerning the Columbia River Gorge National Scenic Act on this parcel; the fo lowing changes are accepted for transfer and/or application into the Current Use Farm and Agricultural classification:

17 acres will be transferred into the C.U.F/AG program 2222 acres will remain in the Classified Forest Land program

It is determined in Mr. and Mrs. Hall's case that the U.S.F.S. Scenic Easement will not restrict the property owners proposed plan for the agricultural use of this parcel.
