Title 22. This document, outlining the conditions of approval, must be recorded in the deed records of the Skamania County Auditor in order to ensure notice of the conditions of approval to successors in interest. SCC §22.06.050(C)(2).

- 1) All developments shall be consistent with the enclosed site plan, unless modified by the following conditions of approval. If modified, the site plan shall be consistent with the conditions of approval.
- 2) Front yard setbacks shall be 45 feet from the centerline of a public or private road or 15 feet from the front lot line, side yard setbacks shall be 5 feet and rear yard setbacks shall be 15 feet.
- 3) All proposed structures shall be located, at a minimum, 100 feet from adjacent agriculturally zoned land to the north and west of the subject property.
- 4) The proposed structures shall not exceed 14 feet in height as shown on the elevation drawings submitted by the applicant.

The applicant shall notify the Planning Department once the building sites have been staked and Department staff shall conduct a site visit within 72 hours of notification to verify the locations are consistent with the site plan submitted and with Condition #4, above.
- 7) All existing tree cover, except that which is necessary for site development, shall be retained and maintained in a healthy condition. The trees and terrain feature just south of the proposed single-family home and accessory structure shall be maintained as landscape and visual screening as the existing trees and terrain feature should not need to be disturbed for site development. Dead or dying trees shall be replaced in kind (same species) and in place.
- 8) The following procedures shall be effected when cultural resources are discovered during construction activities:
 - a) Halt Construction. All construction activities within 100 feet of the discovered cultural resource shall cease. The cultural resources shall remain as found; further disturbance is prohibited.
 - b) Notification. The project applicant shall notify the Planning Department and the Gorge Commission within 24 hours of the discovery. If the cultural resources are prehistoric or otherwise associated with Native Americans, the project applicant shall also notify the Indian tribal governments within 24 hours.
