# STATE OF WASHINGTON TO NORTHWESTERN ELECTRIC CO.

At a meeting of the Board of State Land Commissioners when were present the undersigned members, the following proceedings were had:

IN RE Application No. 3710 by the  
Northwestern Electric Company, for  
an easement for Right of Way for  
Transmission Line Over and Across  
Certain State Land in Skamania County.)

ORDER.

It appearing to the Board of State Land Commissioners at this time that the Northwestern Electric Company has filed in the office of the Commissioner of Public Lands application No. 3710, under the provisions of an act of the legislature approved March 17, 1909, being chapter 188 of the session laws of 1909; which application is for the appraisement of the value of certain state land in Skamania County and the improvements, if any, situated thereon, and the value of all merchantable timber, if any, standing thereon, included within the right of way therein described and within a radius of 200 feet on either side of said transmission line; that the lands affected by and included within said application are described as follows:

All that portion of the N $\frac{1}{2}$  of NW $\frac{1}{4}$  of section 15, township 2 north, range 7 east W.M., which is included within the limits of a strip of land 62 feet in width, having 36 feet of such width on the northerly side and 6 feet on the southerly side of the following described line:

Beginning at a point on the north line of said section 15, said point being 1640 feet east of the northwest corner of said section 15 and running thence in a south-westerly direction 1960 feet to a point on the west line of said section 15, said point being 1050 feet south of said northwest corner, containing an area of 2.87 acres, according to the plat on file in the office of the Commissioner of Public Lands at Olympia Washington; and

It further appearing from said application that the applicant is a corporation,

constructing or proposing to construct across said lands a transmission line for the purpose of generating and transmitting electricity for light, heat or power; that the land within the right of way so applied for is limited to an amount necessary for the construction of said transmission line sufficient for the purpose required, together with sufficient land on either side thereof for ingress and egress to maintain and repair the same; that there are no improvements thereon; that the full value of said lands, including the full value of all standing timber within a radius of 200 feet on either side of said proposed transmission line which may be dangerous to the operation and maintenance of the same, is of a total value of \$473.70; it is, therefore,

ORDERED and DETERMINED, That the full value of the land included in said application, together with the value of all merchantable timber standing within a radius of 200 feet on either side thereof, be and the same is hereby fixed and assessed at the sum of \$473.70; and upon payment of the above amount to the Commissioner of Public Lands by the said Northwestern Electric Company, the right, privilege, power and authority to construct, operate and maintain a transmission line upon and over the lands above described, including the right to cut all standing timber within a radius of 200 feet on either side of said transmission line which may be dangerous to the operation and maintenance of the same, may be exercised in accordance with the statute.

Dated this 19th day of September, 1913.
