Dear Friend

Yours of the 24th just to hand.

We figured the mill in operation upon the ground would pay from the start and would soon carry the burden of expense and it was not the intention to exact the balance of the 1/3 interest payment namely \$5000.00 Therefor we agreed to split the output 3 ways 1/3 to each of the parties in the agreement also in case of sale that it would be split 3 ways and the balance of the \$5000.00 would be cancelled.

I think the boys are fair in not demanding a 1/3 interest until there was over and above net proceeds. The main idea I got from our meeting was this That we could be financed to bring the prospects to a point of production and the amount we deemed necessary was \$1000.00

Mrs. McGlothlen is getting on fine & has been out of the house some.

Roads are almost impossible between here & Randle frost going out--snow is going slowly, fresh snow on the mts. The best regards to the Boys and yourself

Sincerely yours

R. S. McGlothlen
