

1956, respectively, by and between the Company and The Chase Manhattan Bank."

(1) A new definition is inserted after the definition of "*Officers' Certificate*" reading as follows:

"Operating capacity:

"The term '*operating capacity*' shall mean the quantity of gas which the Pipe Line System shall have the capacity at a particular time to receive through intakes at both ends of the Pipe Line System and at various intermediate points thereon, and to distribute and deliver at various points along the Pipe Line System."

(m) A new definition is inserted after the definition of "*outstanding*" reading as follows:

"Permitted changes:

"The term '*permitted changes*' shall mean the changes in the Pipe Line System requested in one or more of the applications heretofore filed by the Company with the Federal Power Commission under Docket Nos. G-9977, G-9978, G-9979, G-10,008 and G-10,038, and any other changes (whether applied for by amendments to said applications or by other applications) in the Pipe Line System relating to diameter of lateral lines or to measuring or regulating facilities, or other minor changes in design or location, provided that all such changes (other than those requested in the applications listed above as heretofore filed) would not in the aggregate materially affect the efficiency or capacity of the Pipe Line System or increase the estimated cost of completion of the Pipe Line System by an amount exceeding in the aggregate \$500,000."

(n) The definition of "*permitted liens*" is amended by adding at the end of *paragraph (l)* thereof:

", and any defects in title to structures or other facilities arising solely from the fact that such structures or facilities are constructed or installed on lands held by the Company under government permits or leases, provided that, in the case of compressor stations on public lands as defined in this *Article 1*, such permits or leases comply with the requirements of that definition."
