Note: The area of the access road lying outside of the right of way for transmission line is 0.21 acre.

(5) that the Commissioner of Public Lands reserves to the State of Washington, its employees, agents and assigns, the right of ingress and egress across, upon and along said right of way and road in connection with the use of adjoining land in a manner that will not interfere with its use by the United States of America, its employees and agents; and should the United States of America ever abandon the use of said right of way for the purposes for which it was granted, said right of way shall revert to the State of Washington, or its grantee.

Dated this 9th day of August, A. D., 1954.
