Together with reasonable rights of ingress, egress and regress to and from said lands for the purposes designated; Provided, however, that nothing in this instrument contained shall imply or be construed to grant any right, privilege or authority to the government or to any person, firm or corporation, or to the public, to use, maintain or otherwise enjoy any road or part of road of the grantors or either of them; and the grant herein made is conditioned upon and subject to the observance of and compliance with this proviso.

The Grantors reserve to themselves, their successors and assigns, the right to cross and recross said strip of land at any place or grade or otherwise by any means and for any purpose and the right to use, maintain, patrol and reconstruct said road for any purpose, in such manner as not unreasonably to interfere with the use of said roadway by the Government or its authorized users, or cause substantial injury thereto; Provided, that during periods when Grantors, their successors or assigns use said road they will perform their share of road maintenance on the portion so used, or will contribute to the cost of said maintenance, so that the road shall be left at the termination of each such use in a condition equal to that obtaining at the beginning thereof.

The Grantors reserve to themselves, their successors and assigns, all timber on said right of way, provided that the Government or

its timber purchasers shall have the right to remove timber upon the right of way to the extent necessary for the construction or betterment of said road. Such timber shall be cut in logs of standard length with proper trim allowance and shall be decked horizontally along said right of way and shall be free from stumps, limbs or other debris. Grantors expressly reserve the right to enter upon such strip of land to remove said decked timber and remove standing timber in the usual and customary manner.

The rights, privileges and authorities herein granted are for full use and enjoyment by the Government, its contractors and timber purchasers, for any and all purposes deemed necessary or desirable in connection with the control, management and administration of national forests, or the resources thereof and, so far as compatible therewith and herewith, use by the general public.

The rights, privileges and authorities herein granted shall continue as long as used for the purposes granted but if the Government shall cease for a period of five years to use the rights, privileges and authorities for the purposes granted; shall abandon the use of the easement herein granted; or shall refuse to issue and continue in effect "Stipulations Governing Rights of Ingress and Egress" in accordance with rules, regulations and policies related thereto under Section 251.5(d) of Title 36 of the code of federal regulations as amended June 15, 1953 (18 F.R. 3482), and pursuant to the Act of June 4, 1897 (16 U.S.C. 478) and conforming to those for similar purposes currently being issued to others, authorizing Grantors to construct or use connecting links of the Lewis River road system which are located on national forest land for access to lands or timber owned by the Grantors; then, in such events, Grantors may terminate this easement and all rights hereunder shall revert to the holder of the fee title to the lands.

IN WITNESS WHEREOF, the Grantors have caused this instrument to be executed by their duly authorized officers and their corporate seals to be hereunto affixed this 25th day of April, 1955.
