SCHEDULE "A"

Schedule "A" attached to and a part of that certain chattel mortgage in which HEGEWALD
TIMBER CO. INC. appears as mortgagor and C.I.T. CORPORATION as mortgagee dated
30 1965

DESCRIPTION OF EQUIPMENT

BARKER UNIT

One (1) Hydraulic barker installation, built 1956, with major components as follows:

One (1) Hansel 60" two-arm hydraulic log barker serial #418 and barker drive base, complete as per Hansen Engineering Co. Proposal #S-134, complete with controls and auxiliary equipment to bark logs from 6" to 60" diameter, with Vickers Power Pack hydraulic pump station units for barker drive and unit for stroke control and top nozzle, 15 H.P., 1200 R.P.M. and 7½ H.P., 1200 R.P.M. motors for pump units.

One (1) Steel barker housing, steel hopper with refuse conveyor and drive, supports with 6" WF beam columns on concrete and pile bases.

One (1) Main barker pump, Ringham type 1x1x10MSE, horizontal split case 8-stage centrifugal pump #32176, 400 G.P.M., 3,375' head, 3,580 R.P.M. with fabricated base and Waldron 3A coupling for direct motor drive.

One (1) Main pump drive motor, 500 H.P., 3600 R.P.M., 2300 V. General Electric type K sleeve bearing induction motor #TN8129146.

One (1) Supply pump, Ringham type 3x1x8SCAD, Serial #33729, with fabricated base and coupling to 40 H.P., 3600 R.P.M., 440 V. Brooks induction motor #X54131.

One (1) General Electric starter for 500 H.P., 2300 V. pump motor, reduced voltage Limitamp type IC7160/B117, non-reversing primary reactor type.

One (1) Log haul from pond through barker unit with 400' of manganese chain and 60 log chairs, steel trough on I-beam stringers with hinged tail section, foundation and piling with typical piling and timber pond end support frame, arranged with hydraulic drive by Vickers hydraulic motor on input shaft of Falk 30 H.P., 68 R.P.M., Class 2 Motoreducer gear unit M.O. #53101697.
