TO HAVE AND TO HOLD the Properties and Transferor, its successors or assigns, forever, subject, however, to the mortgages, liens, charges, encumbrances, restrictions, reservations, exceptions, conditions, limitations, contracts, agreements, interests and other covenants set forth or referred to herein.

The Properties are conveyed, assigned and transferred to the Transferee for the following consideration and upon and subject to the following terms and conditions:

A. The consideration for this conveyance, transfer and assignment is the following:

(1) The issuance to Transferor of 3,491,068 shares of the Common Stock of Transferee, consisting together with the 100 shares of such Common Stock heretofore issued to Transferor, all of Transferee's issued and outstanding capital stock;

(2) The assumption by Transferee of (and by its acceptance hereof Transferee does hereby expressly assume) all liabilities of Transferor reflected or disclosed by the Closing Balance Sheet, including \$228,000,000 outstanding principal amount of indebtedness of Transferor, as provided for in the several Bond Exchange Agreements, dated as of January 15, 1974, and the several Debenture Exchange Agreements, dated as of January 15, 1974, among Transferor, Transferee and certain holders of Transferor's bonds and debentures;

(3) The assumption by Transferee of, and its agreement (and by its acceptance hereof Transferee does hereby expressly assume and agree) to perform, or to satisfy and discharge, all liabilities, duties and obligations of Transferor under or arising as a result of any and all contracts, leases or other agreements of any kind or character included in or related to the Properties or their operation heretofore entered into or assumed by Transferor, or with respect to which Transferor or any of its properties became bound or subject, in the conduct of the business of the Northwest Division, (including, but not limited to, gas purchase contracts, gas storage contracts, gas transportation agreements, construction contracts, purchase orders and work orders, condemnation proceedings, leases and subleases, unitization agreements, communitization agreements, royalty and overriding royalty agreements, operating agreements, employee benefit plans, gas leasehold acquisition contracts, permits, licenses and the contracts and agreements described in Schedules IIIA, IVA, and VII hereto; and

(4) The agreement by Transferee (and by its acceptance hereof Transferee does hereby expressly agree) to indemnify and hold harmless Transferor, its successors and assigns, from and against any and all loss, liability, claim, damage, expense or cause of action whatsoever arising out of, based on or involving any liability, duty or obligation assumed by Transferee hereunder, except to the extent arising out of acts or omissions of, or occurrences involving, Transferor prior to the effective date hereof.

B. Transferor, for the consideration herein expressed, does hereby expressly agree that, from time to time, it will execute and deliver or cause to be executed and delivered to Transferee, its successors or assigns, any and all such deeds, conveyances, assignments, transfers and other instruments of further assurance and will do any and all acts or things as may be reasonably necessary in order to fully vest, perfect or confirm or record or otherwise in Transferee, its successors or assigns, title (as hereinafter warranted) to the Properties, and it does hereby grant to Transferee, its successors or assigns, full power and authority to collect, receive and give acquittance of any sum or sums due or to become due under, by virtue of or in connection with any right, interest, property or asset conveyed hereby and, subject to all the provisions hereof, to commence any action or prosecute or withdraw any suit or proceeding of law or in equity and to do all other things as Transferee may deem necessary or proper in connection with the Properties.

C. Transferee, for the consideration herein expressed and by its acceptance hereof, expressly agrees that, from time to time, it will execute and deliver or cause to be executed and delivered to Transferor, its successors and assigns, and other appropriate parties, any and all such agreements, instruments of assumption, bonds, instruments of surety and other instruments of further assurance as may be reasonably necessary to better evidence or to effectuate and carry out the purpose and intent of this Instrument of Conveyance, Transfer and Assignment, and Transferee does hereby further so agree to use its best efforts to obtain the release of Transferor from all liabilities, duties and obligations under all contracts, leases or other agreements assumed by Transferee hereunder.

1A. Transferor does hereby bind itself, its successors or assigns, to warrant and forever defend all and singular title to the Properties unto Transferee, its successors or assigns, (other than the properties, assets and rights described in Schedule IB hereto, as to which no warranty, express or implied, of any nature whatsoever is given or made by Transferor) against any person whomsoever lawfully claiming or attempting to claim the same, or any part thereof, by, through or under Transferor but not otherwise, subject, however, to the following:

(1) The lien of the Indenture of Mortgage and Deed of Trust, dated as of January 31, 1974, from Transferee to Chemical Bank and Francis J. Farrell, Trustees;

(2) All encumbrances against or affecting the Properties or any part thereof which constitute "permitted encumbrances" within the meaning of such term as defined in Clausus (3), (4), (5), (8), (9), (11), (12), (13), (14) and (15) of Section 1.18 of the El Paso Mortgage, as set forth on Exhibit A hereto; provided that, in the case of the interests (other than as relate to oil) hereby conveyed in the Gas Leasehold Estates, the encumbrances against or affecting such interests of the character described in Clausus (11) and (14) of Section 1.18 of the El Paso Mortgage shall not (calculated as of the effective date hereof and excluding the effect produced by operating agreements, unit agreements, pooling agreements, communitization agreements, federal and Indian royalties in excess of twelve and one-half percent (12½%), gas leasehold acquisition contracts and conversions of royalties to working interests after payout, to which the Gas Leasehold Estates conveyed hereby are subject) reduce the "Total Net Leasehold Acres" hereby conveyed to Transferee by more than five percent (5%). As used herein, the term "Total Net Leasehold Acres" shall mean the sum of the Net Leasehold Acres in all Gas Leasehold Estates conveyed hereby. The term "Net Leasehold Acres", as applied to any Gas Leasehold Estate, shall mean the interest produced by multiplying the net interest in such Gas Leasehold Estate, as shown on Schedule II A annexed hereto, by the number of surface acres included in such Gas Leasehold Estate, as shown on Schedule II hereto. In the event of variances in Net Leasehold Acres in different formations, the determination of the Net Leasehold Acres shall be made on a per lease basis by computing the arithmetic average of interests in the producing formations in such Gas Leasehold Estate as of the effective date of this conveyance. Transferee, its successors or assigns, shall not be entitled to rely on and shall not bring suit or otherwise seek to enforce the warranty set forth herein as to any Gas Leasehold Estate unless it shall have notified Transferor, by registered mail, of each and every variance of claimed Net Leasehold Acres in such Gas Leasehold Estate from the Net Leasehold Acres purported to be conveyed, transferred or assigned hereby within thirty (30) days of written notice of such claim to Transferor, its successors or assigns, as the case may be. In the event of a breach of such warranty, Transferee, its successor or assigns, shall only be entitled to recover for variances of which Transferor is notified after Transferor has been notified of variances totalling five percent (5%) of the Total Net Leasehold Acres, determined as set forth above, and only to the extent such variances exceed such level;

(3) Liens for taxes not yet due;

(4) Minor defects or deficiencies of title or liens and encumbrances which do not materially interfere with the continued use and operation of the Properties, or, in the case of the interests hereby conveyed in the Gas Leasehold Estates, which do not reduce the Net Leasehold Acres (as such term is defined in subparagraph (2) above) conveyed hereby; and

(5) Necessary consents and/or approvals to transfer or assign the rights and properties conveyed hereby as may be required from any railroad, Indian tribe or other Indian authority or private parties, or any federal, state, county, municipal or other governmental department, commission, board, bureau, agency or instrumentality, domestic or foreign, which consents and/or approvals Transferor covenants and warrants to use its best efforts to obtain;

PROVIDED THAT Transferor shall not be liable in damages or otherwise for any breach of the special warranty set forth in this paragraph D unless, except in the case of Gas Leasehold Estates as set forth in subparagraph (2) above, the encumbrance or restriction giving rise to such breach was material in relation to the business conducted or assets owned by Transferee immediately upon this Instrument of Conveyance, Transfer and Assignment becoming effective.

The special warranty of title contained in this paragraph D is in lieu of all other title warranties, express or implied, with respect to the Properties, and is in lieu of all implied warranties, including, but without limitation, any warranties as to merchantability or fitness for a particular purpose. The conveyance, transfer and assignment effected hereby is made, however, with full substitution and subrogation of Transferee in and to all covenants and warranties by others heretofore given or made in respect of any of the Properties.

E. For the same consideration expressed herein, Transferor does hereby agree to indemnify and hold harmless Transferee from and against any and all loss, claim, damage, expense or cause of action in respect of any liability against the Properties (other than liabilities assumed by Transferee as a part of the consideration for the conveyance, transfer and assignment effected hereby and other than liabilities arising out of acts or omissions of, or occurrences involving, the APCO Group (as such Group is defined in the Implementing Agreement) in the conduct of the business of Transferee prior to the effective date hereof) to the extent arising out of acts or omissions of, or occurrences involving, Transferor in the conduct of the business or the Northwest Division prior to the effective date hereof.

F. The indemnified party under paragraph A(4) or E above (the "Indemnified Party") agrees, for the consideration hereinabove expressed, (i) to promptly furnish to the indemnifying party under paragraph A(4) or E above (the "Indemnifying Party"), its successors or assigns, a copy of each notice of default, notice of dissatisfaction or intention to claim a default with respect to any such liability, duty or obligation, or with respect to any claim or liability against which Indemnifying Party has herein agreed to indemnify Indemnified Party, and to permit Indemnifying Party, its successors or assigns, at its or their own expense, to participate in any negotiations or proceedings relative to the settlement or other disposition of any such claim or asserted liability; (ii) not to prejudice the defense or in any way compromise or settle any claim or asserted liability against which Indemnifying Party has herein agreed to indemnify Indemnified Party without the written consent of Indemnifying Party; (iii) to permit Indemnifying Party to defend in the name of Indemnified Party any such claim or asserted liability; and (iv) at Indemnifying Party's request, to cooperate with Indemnifying Party (and to use its best efforts to cause its officers and employees so to cooperate) in the defense of any claim or asserted liability against which Indemnifying Party has herein agreed to indemnify Indemnified Party.

G. In connection with the performance of Transferee's duties and obligations under this Instrument of Conveyance, Transfer and Assignment, Transferee agrees to comply with all of the provisions of Section 202(1)-(7) of Executive Order 11240 (30 Fed. Reg. 12310) which are hereby incorporated herein by reference thereto. Transferee agrees to insert the foregoing provision in all contracts or subcontracts to which it is a party in which such provision would be applicable.

H. The terms, provisions, conditions and warranties of this Instrument of Conveyance, Transfer and Assignment are without prejudice to and do not merge the rights of the parties provided for in the Decree. All representations, warranties and covenants contained in the Implementing Agreement, except to the extent inconsistent with the representations, warranties and covenants set forth herein, shall survive the execution and delivery of this Instrument of Conveyance, Transfer and Assignment and, except to such extent, shall not be deemed to have been merged into this Instrument of Conveyance, Transfer and Assignment.

I. This Instrument of Conveyance, Transfer and Assignment shall be deemed to have been executed and delivered and, when accepted by Transferee in the manner provided below, is to be effective for all purposes as of January 31, 1974, notwithstanding that the actual date of dates of execution and acceptance hereof by Transferor and Transferee, respectively, may be earlier or later than January 31, 1974.

J. This Instrument of Conveyance, Transfer and Assignment is being executed in several counterparts, all of which are identical except that certain of such counterparts, in order to facilitate the recordation, filing and indexing of this Instrument of Conveyance, Transfer and Assignment, may have attached thereto only such of the Schedules referred to herein (or portions thereof) as relate to property situated in the counties or other jurisdictions in which such counterparts are to be recorded, filed or indexed. Each counterpart of this Instrument of Conveyance, Transfer and Assignment shall be deemed an original hereof and all counterparts shall together constitute but one instrument.

EXHIBIT A

This Exhibit A is attached to and hereby made a part of the Instrument of Conveyance, Transfer and Assignment, dated as of January 31, 1974, from El Paso Natural Gas Company to Northwest Pipeline Corporation.

This Exhibit A contains certain portions of the definition of "permitted encumbrances" contained in Section 1.16 of the El Paso Mortgage, as defined in said Instrument of Conveyance, Transfer and Assignment. This Exhibit A also contains portions of other provisions of the El Paso Mortgage which are pertinent to the definition of "permitted encumbrances" as set forth herein.

All terms used in the provisions of the El Paso Mortgage which are set forth in this Exhibit A shall have the same meaning herein as are assigned to them in the El Paso Mortgage, and all such definitions are incorporated herein by reference.

Section 1.16. The term "permitted encumbrances" shall mean any and all of the following:

(3) taxes for the then current year or which are not yet due.

(4) taxes or fees created by assessments of governmental bodies, payment of which is due in installments over a period of years and no payment of which is overdue, and taxes or assessments already due payment of which is being computed to and paid by the Company.

(5) any right which any municipality or other governmental body, or agency may have, by virtue of any franchise, grant, license, permit, contract or statute, to purchase, lease, or to designate a purchaser of or order the sale of any property of the Company, acquisition of a fair compensation therefor and to terminate any franchise, license or other right of the Company, property or business of the Company, and any limitations or restrictions on the use of such property or business, or leasehold or other interests in or permits for the use of federal or state lands, or the acquisition of assignees thereof imposed by statute or by applicable regulations or orders of the government of the United States of America, provided that such purchase, lease, or acquisition of such property or business, or leasehold or other interests in or permits for the use of federal or state lands, or the acquisition of assignees thereof, or restrictions do not substantially impair the serviceability or the ability of this Indenture.

(6) any mortgage or other encumbrance constituting a lien on real estate, in addition to the Company over which the Company has a lien, existing at the date of the execution of this Indenture or, as to rights of way, thereafter acquired, existing at the date of such acquisition, or any mortgage or other encumbrance constituting a lien upon land now owned or hereafter acquired by the Company and used primarily for right of way purposes, provided that in each case the Company shall neither have assumed nor shall customarily pay interest upon the indebtedness secured by any such mortgage or other encumbrance.

SECTION 8.01 [Referred to in Clauses (9) and (14) of Section 1.16 set forth above]. Unless an event of default shall have happened and be continuing, the Company

(11) may, without obtaining any release or consent of the Trustees, grant or convey rights of way or easements over or in respect of any real property or interest in real property owned by the Company, provided such grant or conveyance will not in the opinion of the Company materially impair the usefulness of the property in question in the conduct of the business and operations of the Company; provided that, if the Company shall receive in any such case cash or other consideration in excess of \$100 for any such right of way or easement, an amount equal to such cash or the fair value of such other consideration shall be deposited with the Corporate Trustees; or

from such other party; provided that, in case of any such surrender, transfer, release or reassignment by the Company, the Company shall promptly file with the Corporate Trustee a certificate of the Company, dated within ten days of the date of such filing, setting forth the facts on the basis of which there has been compliance with the requirements of this subdivision (12) and an opinion of counsel to the effect that, based upon such certificate of the Company, such surrender, transfer, release or reassignment is required or permitted by the applicable designated contract.
