Honorable John Spellman
Governor, State of Washington
State Capitol
Olympia, Washington 98504

Dear Governor Spellman:

I am pleased to present to you the attached clear lists conveying to the State of Washington a total of 2,861 acres of land selected by the State under the indemnity selection and quantity grant provisions of the Act of February 22, 1889 (25 Stat. 676), under which the State of Washington was admitted to the Union.

Issuance of these clear lists completes the State's land selection program and fully satisfies the State's land entitlements under both the indemnity selection and quantity grant provisions of the Statehood Act.

It has been the Bureau's policy to consider this remaining entitlement as an obligation due the State by the Federal government, and completion of the State's selection program as expeditiously as possible has been of the highest priority with the Bureau. The clear lists represent the culmination of a great amount of work on the part of the Bureau and the State over many years. A detailed audit of the State's remaining indemnity rights was completed in 1979, and the final decision on the remaining entitlement was issued on March 10, 1982. Since that time the Bureau and the State have worked together to identify lands available for selection, to prepare the necessary applications, to make the required reports and clearances, and to prepare the necessary final documents and clear lists. The 2612.66 acres of land granted in attached indemnity selection clear lists No. 276 and No. 277 will serve to support the State's public schools as provided in the Statehood Act. Quantity grant clear lists No. 39, No. 40, and No. 41 convey 247.87 acres of land for the purposes of erecting public buildings at the state capitol and maintaining universities, scientific and normal schools, and other State charitable, educational, penal, and reformatory institutions. Under the Statehood Act all proceeds generated by these lands will be used to support these institutions.

I would like to express my appreciation to you and to Commissioner Boyle and the members of his staff for the State of Washington's excellent cooperation with us in completing the selection program. I am happy to have been involved in such a program which will benefit the people of the State of Washington.

It is further certified that the description of lands reported lost or deficient in this list and those selected in lieu thereof have been examined and compared with the township plats and tract books in the Land Office; that the indemnity lands claimed have been found to be properly due the townships for which they were selected, and the selected lands are shown to be subject to such selections, being surveyed public lands within the meaning of 43 U.S.C. 851 and 852 and within the limits of the State and free from adverse claims of record.
