Corner Code No. E-19

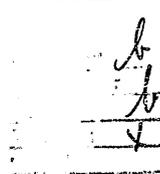

Segregated Surveys:

Name: One quarter corner common to Sections 2 & 11 Corner No. _____
DLC, HES MINING CLAIM, INDIAN ALLOTMENT, FEDERAL RESERVE, TOWNSITE

1. History of Corner Establishment and Subsequent Restoration; description of Evidence Found:

The 1859 GLO notes call for a 80 inch and a 48 inch diameter fir. Bonneville Power Administration, in about 1939, notes finding a fence corner which has been perpetuated in the same location. However there is neither of the two large trees called for in the GLO notes at record bearing and distance. This corner possibly was set by Clark La Barre around 1910 by chaining 2460 feet from the Northwest Section Corner.

The fence corner is also fairly close to a single proportion. As we could find no two trees to fit the GLO notes, we set the corner by single proportion. The fence corner falls 2.7 feet West and 13.5 feet South.
