

"Half Moon" Claim, Bald Mountain Mining District.

Notice of amended location of Quartz Mining Claim.

Notice is hereby given that I, Jonathan Bourne Jr., a citizen of the United States, having complied with the requirements of the laws of the United States and of the State of Washington, and the local customs, laws and regulations, have located and claim by virtue of the original discovery and location and this amended certificate of location, fifteen hundred linear feet on this the Too Too lode of mineral-bearing quartz, and three hundred feet in width on the southerly side of the center of said lode and eighty five feet in width on the northerly side of the center of said lode, together with all mineral deposits contained therein, and all timber growing within the limits of said claim, and all water and water privileges thereon or appurtenant thereto. This claim is situated in the Bald Mountain Mining District, in the County of Okanogan, State of Washington, and is now and shall be known as the "Half Moon" Mining Claim.

The general course of said lode is South $59^{\circ} 5'$ East and I claim in length on said lode fifteen hundred (1500) feet southeasterly from the point of discovery, at which point I have posted an original duplicate of this notice. I have marked the surface boundaries of this claim by placing substantial posts not less than three feet high and four inches in diameter at each corner of said claim, bearing the name of the lode and of the claim and the date of location, and have cut the brush and marked and blazed the trees along the lines of said claim to indicate the location of said lines.

The surface boundary of this claim is particularly described as follows, to wit:

Beginning at a post in a mound of stone at the northwest corner of said claim, said post being also the southwest corner of the "Dry Top" Mining Claim.

This post is three thousand two hundred and fifty five (3255) feet north and thirteen hundred and forty four (1344) feet west of the northwest corner of section numbered twenty eight (28) in Township three (3) north of Range five (5) East of the Willamette Meridian. Thence South $59^{\circ} 52'$ East fifteen hundred (1500) feet; thence South 32° West three hundred and eighty five (385) feet; thence North $59^{\circ} 52'$ West fifteen hundred (1500) feet; thence North 32° East, three hundred and eighty five (385) feet to the

place of beginning.

And I intend to hold and work said above described claim as provided by the laws of the United States and of the State of Washington

This is an amended location of the Half Moon claim, discovered by Jonathan Bourne Jr. on the 25 day of August 1897, and located on the 25th day of August 1897, and recorded at page 427 of Book "B" of Miscellaneous Records of Skamania County, Washington, I now being the owner of said claim.

This amended certificate of location is made without waiver of any rights previously acquired by me by virtue of said original location, and for the purpose of correcting any errors in the original location, description or record of said claim, and of taking in any additional ground which is subject to location, and any part of any overlapping claim which has been abandoned.

This amended certificate dated this 16th day of October 1899.
