The surface boundary of this claim is particularly described as follows, to-wit:

Beginning at a post in a mound of stone at the southeast corner of said claim. said post being also the northeast corner of the Lionville Mining Claim: This post is one hundred and twenty nine (129) feet South and one hundred and eleven (111) feet East of the northeast corner of Section twenty eight (28) in Township 3 North of Range 5 East of the Willamette Meridian: Thence North $69^{\circ} 50'$ West fifteen hundred (1500) feet: Thence North 32° East three hundred and eighty five (385) feet: Thence South $69^{\circ} 50'$ East fifteen hundred (1500) feet: Thence South 32° West three hundred and eighty five (385) feet to the place of beginning.

And I intend to hold and work said above described claim as provided by the laws of the United States and of the State of Washington.

This is an amended location of the Wild Rover claim, discovered by J. J. Hyatt on the 25th day of August 1894, and located on the 25th day of August 1894, and recorded at page 426 of Book "C." of Miscellaneous Records of Skamania County, Washington, I have hereby

owner of said claim.

This amended location is made without waiver of any right previously acquired by me by virtue of said original location, and for the purpose of correcting any errors in the original location, description or record of said claim, and of taking in any additional ground which is subject to location, and any part of any overlapping claim which has been abandoned.
