

Donation land claim to Moses Bellman, who in turn afterwards deeded the same to myself and George Miller. I also state that in the various conveyances of said Murphy donation land claim the entire claim was intended to be conveyed, and a correct description could not be gotten at said times, but said conveyances always meaning the whole of said Murphy donation land claim as described in his notification No. 837. That on April 28th 1870, the day when I conveyed my interest in said Murphy donation land claim to George Miller I was a single man and had no children. I also knew one James B. Stephens and know that he had no claim to said donation land claim and the deed as shown to me from William M. Murphy to said Stephens was given for security of a team of horses sold by said Stephens to said Murphy and for nothing else, said Stephens knowing very well that we, myself and George Miller had legal and lawful possession of said Murphy donation land claim.

I make this deposition with my own free will and without coercion and influence of any one and in the presence of the witnesses below mentioned this 31st day of March 1911.
