CERTIFICATE

The Water Resources Act of 1971 specifies certain criteria regarding utilization and management of the waters of the State in the best public interest. Issuance of this certificate was based on sufficient waters available, at least during portions of the year. However, it is pointed out to the certificate holder that his use of the water may be subject to regulation at certain times, based on the necessity to maintain water quantities sufficient for preservation of the natural environment.

Issued as a supplemental supply to Surface Water Certificate No. 3138. The total annual diversion, under both rights, shall not exceed one acre-foot per year for domestic supply.

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, except as provided in RCW 90.03.380, 90.03.390, and 90.44.020.

This certificate of water right is specifically subject to relinquishment for nonuse of water as provided in RCW 90.14.100.

Given under my hand and the seal of this office at Olympia, Washington, this 29th day of May, 1975.

JOHN A. BIGGS, Director
Department of Ecology
