THIS DIAGRAM EXPLAINS METHOD OF DESCRIPTION OF CLAIM.

Notice of Mining Location

STATE OF Washington
 County of Skamania
Wind River Mining District

NOTICE IS HEREBY GIVEN That the undersigned, having complied with the requirements of Chapter Six of Title Thirty-Two, of the revised statutes of the United States, and the laws of the above State, and the local customs and regulations of said District has located and does hereby locate 1500 linear feet in length, and 600 feet in width on the Jo-Jo lode, (Name of) vein, ledge or deposit situated in the above State, County and Mining District, and further described as follows:

Commencing at a post marked No. 1 at the Discovery shaft (cut or tunnel), from thence 75 feet in a Easterly direction to an end post marked No. 2, thence 300 feet in a North direction to a corner post marked No. 3, thence 1500 feet in a West direction to a corner post marked No. 4, thence 300 feet in a South direction to an end post marked No. 5, thence 300 feet in a South direction to a corner post marked No. 6, thence 1500 feet in a East direction to a corner post marked No. 7, thence 300 feet in a North direction to said end post marked No. 2; hereby locating and intending to claim 75 feet in a East direction from discovery to the East end line and 1425 feet in the opposite direction from discovery to the West end line and 300 feet on each side of the middle of said lode or ledge, for the purpose of mining the same and claiming all the surface rights, privileges and minerals, with all dips, spurs, angles and variations, and other rights granted by existing laws and customs. This claim is further described as follows (and state distance from natural object or permanent monument, Section, Township and Range, if possible):

5 1/2 SE 1/4, NW 1/4, Sec 20, T5N, R7E

The adjoining claims are Near Keweenaw

This notice is placed at discovery on post No. 1; posts are placed at each corner and both center ends, and the name of this lode and date of location are placed on all posts.

Located this 12th day of July, A.D. 19 71.

STEVENS-NESS LAW FIRM, P.C., PORTLAND, ORE.

STATE OF

County of

ss.

I, do solemnly swear that I am a citizen of the United States of America (or have declared my intentions to become such), and that I am acquainted with the mining ground described in this notice of location, and herewith called the

ledge, lode, or claim; that the ground and claim therein described, or any part thereof, has not to the best of my knowledge and belief, been located according to the laws of the United States, and of this State, or if so located, that the same has been abandoned and forfeited by reason of the failure of such former locators to comply in respect thereto with the requirements of said laws and that I have sunk a discovery shaft upon said claim to a depth of ten feet from the lowest part of the rim of said shaft at the surface—made a cut or cross cut or tunnel which cuts the lode at a depth of ten feet—made an open cut six feet deep, four feet wide and ten feet in length along the lode, from the point of discovery, showing a lode or vein of mineral deposit in place.

Necessary steps in locating a quartz claim.

1. Post notice of location at point of discovery.
2. Stake claim within 30 days of date of discovery.
3. Dig location cut or shaft within 60 days of date of discovery.
4. File copy of notice of location with county clerk or recorder for the county in which the claim is located. Filing fee is \$1.00 per claim. Notice may be mailed in for recording. Notice should be recorded within 60 days from the posting of the notice on the claim.
- Area and shape of a quartz claim.
A quartz claim can be not more than 1500 feet in length and can extend not more than 500 feet on either side of the center line (Fig. 1-A). Although most claims are rectangular they may have a variety of shapes. The only requirement being that the end-lines be parallel. In the case of non-rectangular claims it should be noted that the end-lines need not be limited to 609 feet in length (Fig. 1-B).
- Requirements of a quartz claim (Fig. 1-C).
1. Location of notice posted at or near point of discovery.
2. Discovery cut or shaft. Discovery cut must be at least 4 feet wide, at least 10 feet deep from the lowest part of the rim.
3. Four claim corner posts, or monuments, and two center end posts, or monuments. All posts must be at least 4 inches square or in diameter, earth and stone, must be at least 2 feet in height.
- Quartz claims are located where minerals occur in place in veins or lodes. Most metal mines are quartz locations.

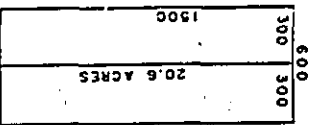

Fig. 1 (A)

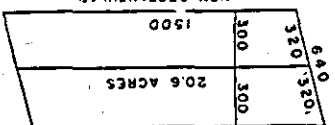

Fig. 1 (B)

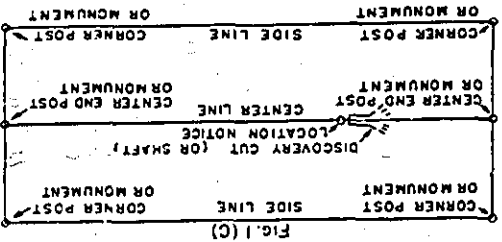

Fig. 1 (C)

Placer claims are located where minerals have been derived from rocks or veins to form deposits of nonmetallic minerals such as limestone, building stone, and pumice are generally located as placer claims.
