PIONEER, INC., TACOMA-2241

Mortgage Record Y

557

Motors:

- 1 - U. S. Motor, 5 HP, Serial #769522
- 1 - U. S. Motor, 1/2 HP, Serial #733233
- 1 - Westinghouse Motor, 30 HP, Serial #7403
- 1 - U. S. Motor, 5 HP, Serial #513249
- 1 - Westinghouse Motor, 7-1/2 HP, Serial #EMM-9198

BAMFORD-PREMIER KNIFE GRINDER:

Bamford-Premier Knife Grinder, Serial #KG-4. Cable drive on carriage and a travel of 12' 6".

- 1 - U. S. Motor, 5 HP, Serial #667368
- 1 - U. S. Motor, 1-1/2 HP, Serial #637372

TRAY SYSTEM:

Chain Geary Tray System is specially designed to convey veneer from lathe to clipper. Each tray is controlled by specially designed air clutches and driven by 10 HP electric motor. Each tray is 10' wide and 127' long.

Motors:

- 1 - U. S. Motor, 5 HP, Serial #729537
- 1 - Master Motor, 2 HP, Serial #VE-17560
- 1 - U. S. Motor, 2 HP, Serial #734316
- 1 - U. S. Motor, 10 HP, Serial #740915
- 1 - U. S. Motor, 10 HP, Serial #621262

STEAM ENGINE:

1 - Pawling Harnischfeger (Builder) 14"x15" twin steam engine - 450 HP. This engine has just been completely overhauled and rebored with new piston by I. W. Johnson Engineering Co., Tacoma, Washington.

AIR COMPRESSOR:

Garden-Denver Air Compressor, Serial #122745. Air Compressor engine is designed to develop 100# per square inch. Engine is a twin cylinder water cooled and powered by 50 HP electric motor. Air is compressed in a 3' 6" x 12' welded heavy steel tank.

Motor:

- 1 - Westinghouse Motor, 50 HP, Serial #H-3456

TWO - CLARK LIFT GAS TRUCKS:

Clark Lift Trucks are rubber tired and powered by 4-cylinder gas motor, with lifting capacity 4000# each.

Truck Fork Lift Truck #1 - Serial #NCL-481244, code #4024, 9' maximum vertical lift, 4000# vertical lift.

Truck Fork Lift Truck #2 - Serial #CL-481898, code #4024, 12' vertical lift maximum, 4000# vertical lift.

ELECTRIC WORKSAVER YALE TRUCK:

Yale Work saver Electric Lift Truck, Model #M-5-W-11-72, Serial #149201. Capacity 6000#.

VENEER DRYER:

15-Section Moore Dryer, manufactured by Moore Dry Kiln Co., Portland, Oregon, Type W. T., Factory #1845.

One Moore Roller Veneer Dryer, 15 drying sections, 1 cooler section and one off-bearing section. Six circulating fans and one cooler fan. Each fan drive is a separate V-Belt Drive and each has a separate motor. All outside covering of the drying sections are completely insulated and of designed engineered fit. Each drying section has five steam circulating coils and steam header connected to steam trap to assure maximum control in heating.

Motors:

- 1 - G.E. Motor, 20 HP, Serial #PE-6770400
- 1 - G.E. Motor, 20 HP, Serial #PE-6770414
- 1 - G.E. Motor, 20 HP, Serial #PE-6770402
- 1 - G.E. Motor, 20 HP, Serial #PE-6771452
- 1 - G.E. Motor, 20 HP, Serial #PE-6771451
- 1 - G.E. Motor, 20 HP, Serial #PE-6771440
- 1 - G.E. Motor, 20 HP, Serial #NE-6843580
- 1 - G.E. Motor, 7-1/2 HP, Serial #RD-31472

HOG:

1 - 42" Peninsular Hog, Chain drive powered 75 HP electric motor.

Motor: 1 - Fairbanks-Morse 75 HP, Serial #587161

FACTORY TRUCKS:

50 - Factory Trucks, truck frame is 3'x7' made of wood and re-enforced with angle iron. Large wheels on sides 3" wide and 16" in diameter. End caster wheels are 6" diameter. Truck capacity is 8000#.

CORE SAW:

Core saw manufactured by Western Machinery Co., Tacoma, Wash. Has V-Belt drive and is powered by 7-1/2 HP Electric motor.

Motor: 1 - U. S. Motor, 7-1/2 HP, Serial #720215

GLUE SPREADER & HOIST:

Francis Glue Spreader, rebuilt by Western Machinery Co., Tacoma, Wash. Has steel rolls, chain drive and powered by 3 HP electric motor.
