Department of Natural Resources

BRIAN J. BOYLE  
Commissioner of Public Lands

MAY 7 1982

Mr. Gary Olson  
Skamania County Courthouse  
Stevenson, WA 98648

Dear Mr. Olson:

We are enclosing certified copies of School Indemnity Clear List Nos. 4, 23, 49, 53, 63 and 109 by which the United States of America conveyed to the State of Washington the School Indemnity lands listed therein, all or part of which lie within your county.

We shall appreciate your recording each instrument as an accommodation both to the State and to your county, and also to title companies, in maintaining continuity of title.

Please return the recorded instruments to this office and accept our thanks for your kind cooperation in this matter.

Sincerely,

*Sandra S. Clancy*

Sandra S. Clancy  
Manager, Office Services

DEPARTMENT OF THE INTERIOR  
GENERAL LAND OFFICE

Washington, D. C. May 18, 1925.

This certifies that the tracts of land described in the foregoing list have been carefully examined and compared with the township plats and tract books in this office, and the same have been found to issue to the State of Washington under its grant for the purpose stated, being free from conflicts or other adverse claims of record, no withdrawal or reservation is of record in this office affecting any of the selected lands. Reports have been received from the Geological Survey stating that the records of the Survey indicate that in all probability the lands contain no coal or other non-metalliferous minerals but that they may contain metalliferous deposits. Field examination was recommended to determine whether metalliferous deposits are to be found in the lands. April 4, 1925, a departmental inspector submitted reports, based on field examination, stating that such field examination disclosed no mineralization. We recommended that the lands be given a non-mineral classification. These reports have been accepted by this office.

Approved:

*(Signed) J. H. Douglas*  
Acting Chief of Division

DEPARTMENT OF THE INTERIOR  
GENERAL LAND OFFICE

Washington, D. C. May 28, 1925.

It is hereby certified that the tracts described in this list, No. 63, are embraced in the original lists, now on file in this office of lands selected by the State of Washington pursuant to the laws of said State in the Seattle district, as indemnity for losses in the sections and townships named, which school-land indemnity selections are authorized by the acts of Congress cited.

It is further certified that the lands reported lost or defective in said list and those selected in lieu thereof have been examined and compared with the township plats and tract books in this office, that the indemnity lands claimed have been found to be properly due the townships for which they were selected, and the selected lands are shown to be subject to such selection, being surveyed public lands, not mineral in character, within the limits of said State and free from adverse claims of record.

It is, therefore, recommended that the said list, embracing 7,608.88 acres, be approved subject to any valid interfering rights existing at date of selection, but excepting and reserving unto the United States rights of way over and across said selected lands for ditches or canals constructed by their authority, all as directed and required by the act of Congress approved August 30, 1906 (34 Stat. 221).

*(Signed) William Barry*

DEPARTMENT OF THE INTERIOR  
OFFICE OF THE SECRETARY

Washington, D. C. June 1, 1925.

The foregoing selections, embracing 7,608.88 acres, are hereby approved subject to any valid interfering rights existing at date of selection, but excepting and reserving unto the United States rights of way over and across said selected lands for ditches or canals constructed by their authority, all as directed and required by the act of Congress approved August 30, 1906 (34 Stat. 221).

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
BUREAU OF LAND MANAGEMENT  
WASHINGTON 25, D. C.

APR 2 1953

Washington Indemnity Selection

It is hereby certified that the lands described in this List No. 109 are embraced in the original lists on file in this Bureau, of the lands selected by the State of Washington, pursuant to the laws of the State, in the Washington Land District, as indemnity for losses in the sections and townships named, which school land indemnity selections are authorized by the Acts of Congress cited.

It is further certified that the description of land reported lost or deficient in this List and those selected in lieu thereof have been examined and compared with the township plats and tract books in the Land Office; that the indemnity lands claimed have been found to be properly due the townships for which they were selected, and the selected lands are shown to be subject to such selection, being surveyed public lands within the limits of the State and free from adverse claims of record. Reports have been received from the Geological Survey indicating that the selected lands are not valuable for minerals either metalliferous or nonmetalliferous.

The selected lands are not affected by any withdrawal adverse to this selection.

Therefore, and pursuant to Section 2.76 of Secretarial Order No. 2583 dated August 16, 1950, this list embracing 3,371.46 acres is hereby approved subject to valid existing rights at date of selection; but excepting and reserving to the United States rights-of-way over and across the lands for ditches and canals constructed by the authority of the United States, as directed and required by the Act of Congress approved August 30, 1890 (26 Stat. 391).

*George D. Wilson*  
Assistant Commissioner of the General Land Office.

DEPARTMENT OF THE INTERIOR  
GENERAL LAND OFFICE

WASHINGTON, D. C. April 26, 1923

This certifies that the tracts of land described in the foregoing list have been carefully examined and compared with the township plats and tract books in this office, and the same have been found to agree with the State of Washington under grant for the purpose stated, being free from conflict or other adverse claims of record. No withdrawal or reservation for mineral or other purposes is of record in this office affecting any of the selected tracts. The Director of the U. S. Geological Survey reported in matter of the selections contained in Seattle List 794.93 that because of the lack of record information in this office he was unable to report as to the mineral or non-mineral character of the selected lands and recommended examination by the Field Service of this office on that question. As to the lands selected in the Spokane and Vancouver land districts, the Director reported that the records of the Survey indicated that such lands contained no coal or other non-metalliferous minerals with the recommendation that field examination be made to determine whether or not valuable deposits of metalliferous minerals are present. Reports based on field examination were subsequently made in all of the cases, by Mineral Examiners of this office stating that the lands are non-mineral in character.

(Signed) *Frederick S. Henshaw*

APPROVED: (Signed) *Frederick S. Henshaw*

DEPARTMENT OF THE INTERIOR  
GENERAL LAND OFFICE

WASHINGTON, D. C. May 21, 1923

It is hereby certified that the tracts described in the list No. 794.93 are embraced in the original list now on file in this office, of lands selected by the State of Washington pursuant to the laws of said State, in the Seattle, Spokane and Vancouver land districts as indemnity for losses in the sections and townships named, which school land indemnity selections are authorized by the acts of Congress.

It is further certified that the lands reported lost or deficient in said list and those selected in lieu thereof have been examined and compared with the township plats and tract books in this office, that the indemnity lands claimed have been found to be properly due the townships for which they were selected, and the selected lands are shown to be subject to such selection, being surveyed public lands, not mineral in character, within the limits of said State and free from adverse claims of record.

It is, therefore, recommended that the said list, embracing 794.93 acres, be approved subject to any valid interfering rights existing at date of selection, but excepting and reserving unto the United States rights of way over and across and selected lands for ditches or canals constructed by their authority, all as directed and required by the act of Congress approved August 30, 1890 (26 Stat. 391).

DEPARTMENT OF THE INTERIOR  
GENERAL LAND OFFICE

WASHINGTON, D. C. September 8, 1924.

This certifies that the tracts of land described in the foregoing list have been carefully examined and compared with the township plats and tract books in this office, and the same have been found to conform to the State of Washington under its grant for the purposes stated, being free from conflicts or other adverse claims of record. No withdrawal or reservation for mineral or any other purpose is of record in this office affecting any of the selected tracts. On March 22, 1924, the Geological Survey reported that no geologic examination of any of these lands had been made by the Survey, but that information submitted by the Field Service of this office regarding nearby tracts indicated that the possibility of the existence of valuable deposits of coal or other minerals is negligible and that field examination is not warranted.
