SURVEY FOR

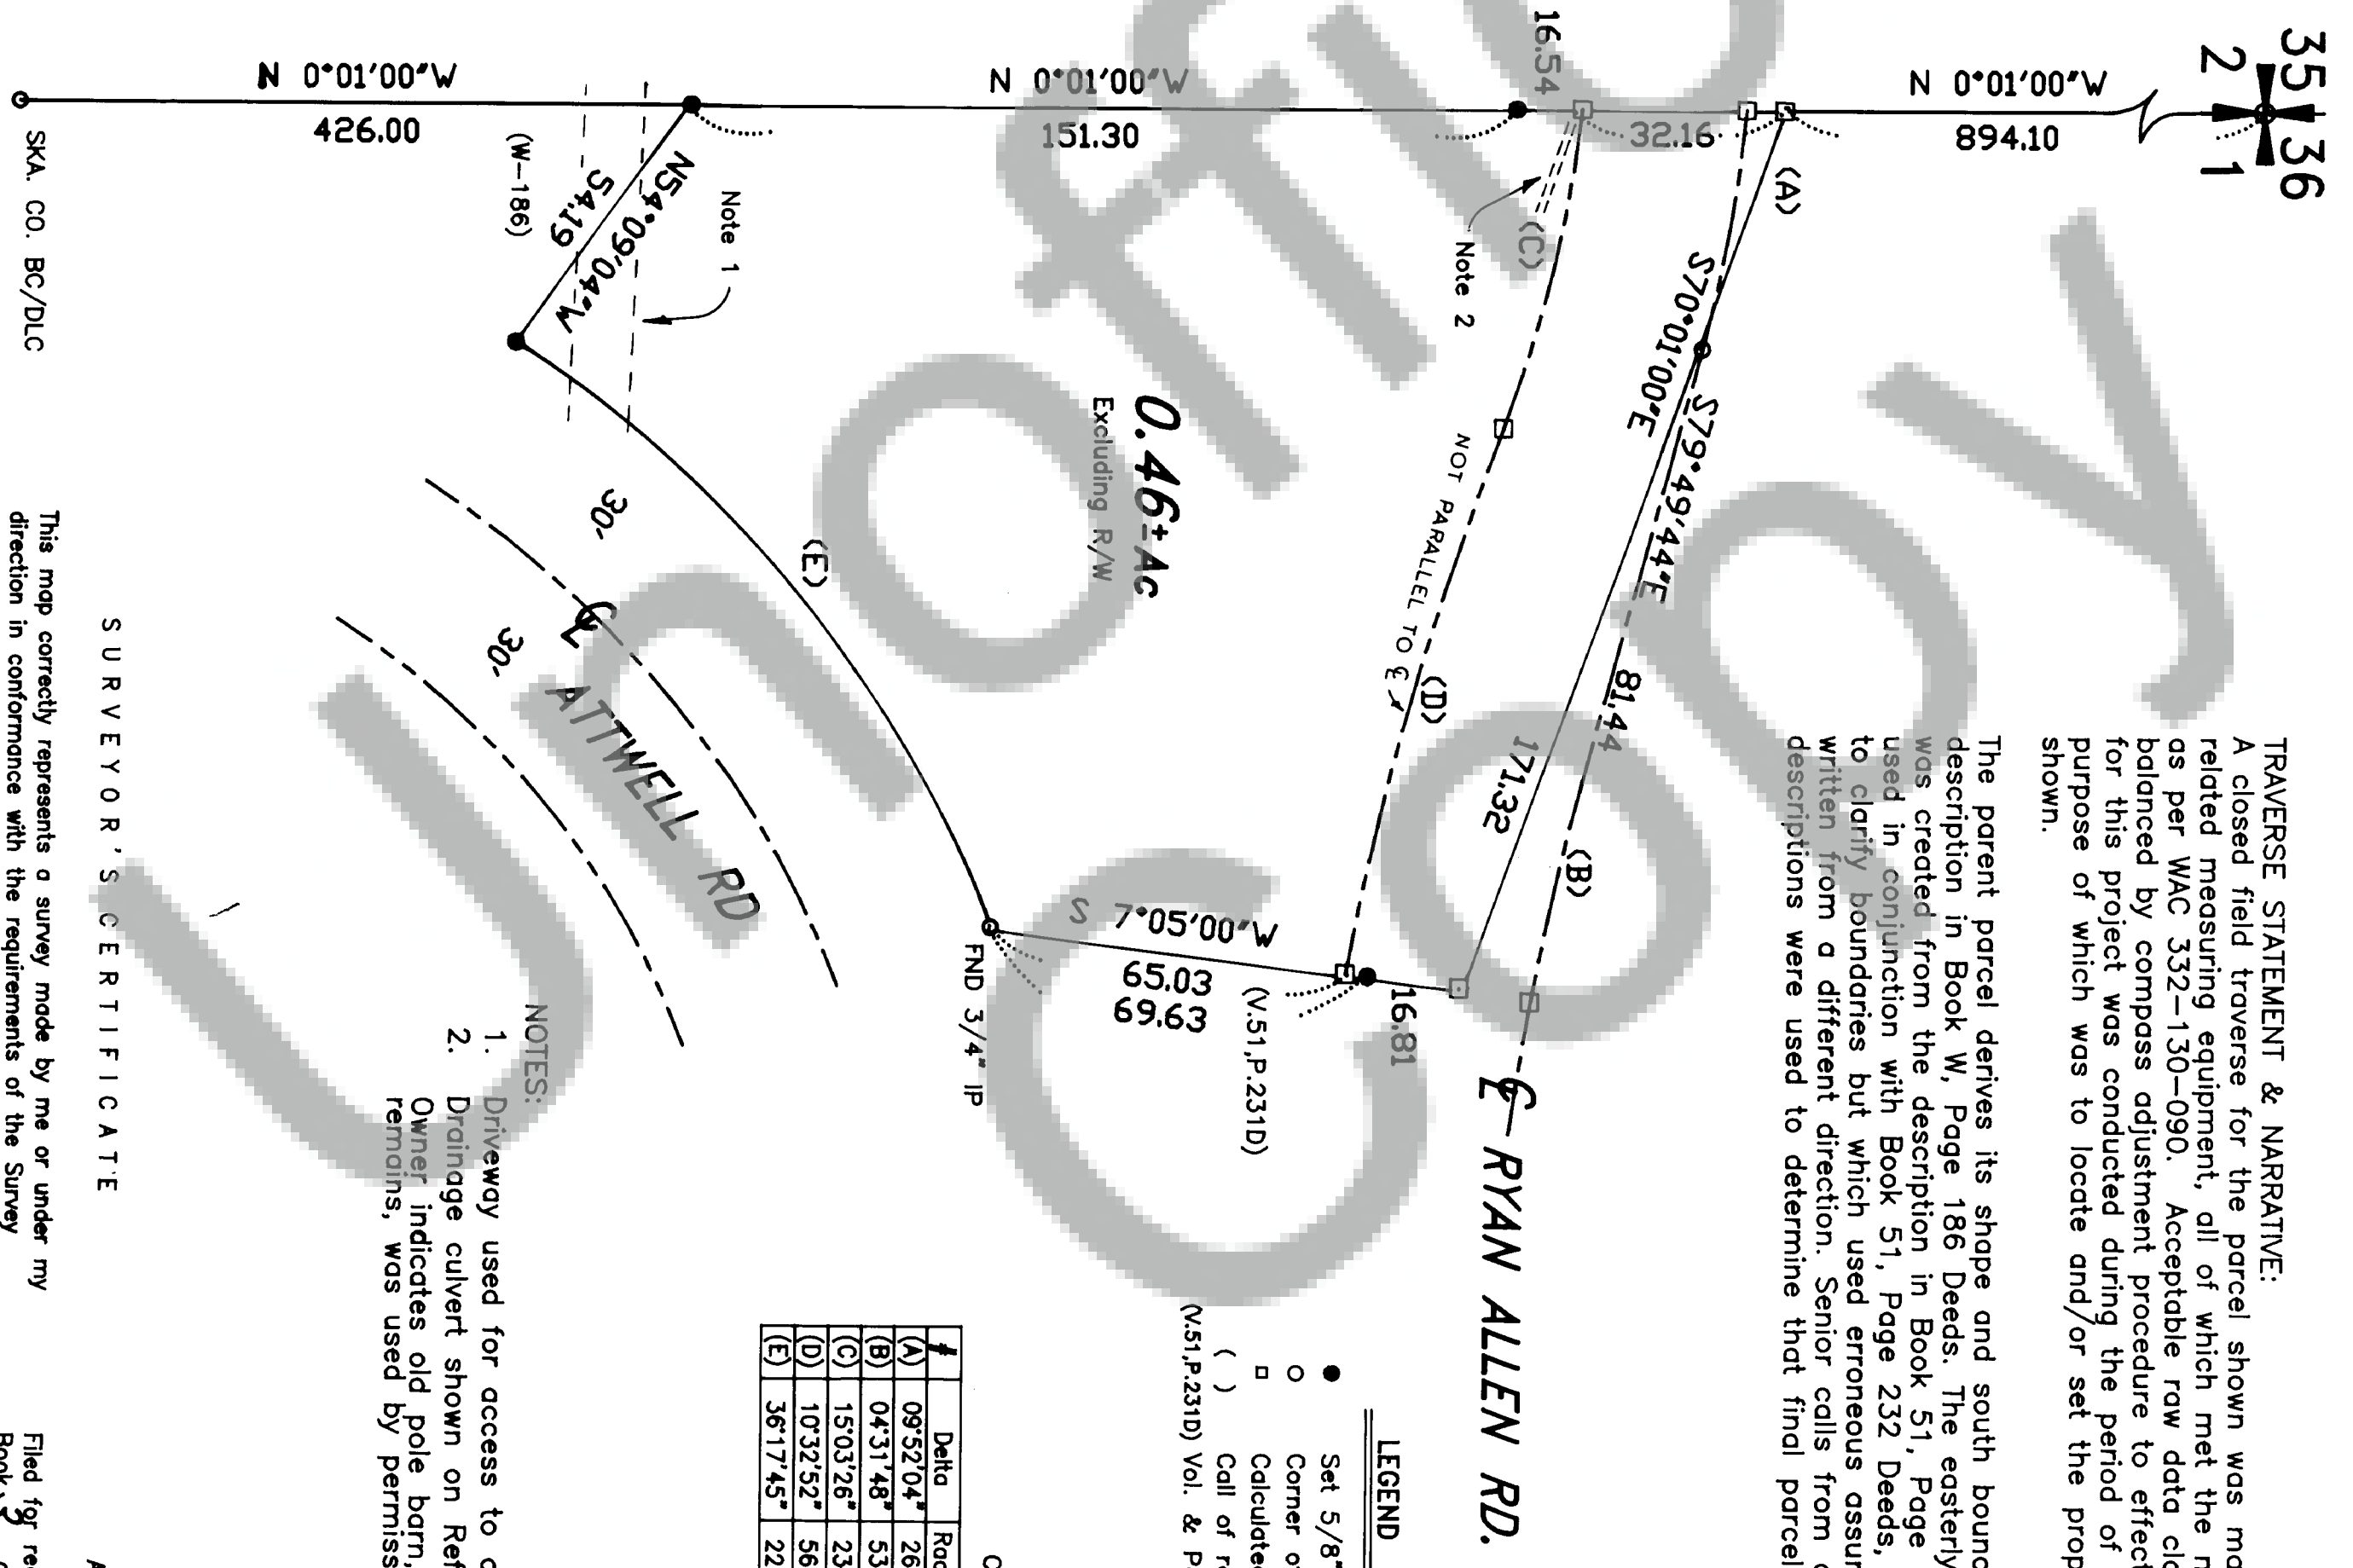

SHARON BRANDENBURG

SKAMANIA CO., WASHINGTON

Surveyed: ES Drawn: KG Project #: 53948

TRAVERSE STATEMENT & NARRATIVE:
A closed field traverse for the parcel shown was made with a total station and related measuring equipment, all of which met the minimum standards for this survey as per WAC 332-130-090. Acceptable raw data closure of greater than 1:10000 was balanced by compass adjustment procedure to effect mathematical closure. Field work for this project was conducted during the period of Sept. 22, 1993 to Feb. 8, 1994, the purpose of which was to locate and/or set the property corners of the parcel as shown.
The parent parcel derives its shape and south boundary from the description in Book W, Page 186 Deeds. The easterly adjacent parcel was created from the description in Book 51, Page 231 which, when used in conjunction with Book 51, Page 232 Deeds, may have intended to clarify boundaries but which used erroneous assumptions and is written from a different direction. Senior calls from all descriptions were used to determine that final parcel boundary.
