No Scale

TRAVERSE STATEMENT & SURVEY NARRATIVE: A closed field traverse for the parcels shown was made with a 10" total station and related measuring equipment, all of which met state standards (WAC 332-130-090) at the time of this survey. Acceptable raw closure in excess of 1:10000 was balanced by compass adjustment procedure to effect mathematical closure.

Of the survey for Reid, the east corner of Lots 7 & 10 was calculated only and not set since the existing structure slightly straddles the common lot line. No encroachments were found.

Of the survey for Owen, a list of deed references is provided as this parcel has had a history of deed corrections. The existing fencelines are noted as found and are not considered as encroachments by adjacent owners. Field work for both projects was conducted during the period of June 16-December 20, 1994.
