JAMES BARRESSE, SR.,
Plaintiff,
and
COUNTY OF SKAMANIA,
WASHINGTON
Defendant.

No. 96-2-00004-5

AFFIDAVIT IN SUPPORT
OF MOTION FOR RETURN
OF PROPERTY

1. I represent the Plaintiff, James Barresse, Sr., in this matter.
2. I understand that on December 29, 1995, the officers of the Clark/Skamaniam Drug Task Force and officers from the Skamaniam Couty Sheriff's Department searched the residence of James Barresse, Sr., located at M. P. 0.03L (31) Gordon Road, Stabler, Washington.
3. Said search was allegedly conducted pursuant to a search warrant signed on December 28, 1995, by the Judge of the District Court of Skamaniam County, the Honorable Ronald H. Reynier. A copy of the Affidavit for Search Warrant, the Search Warrant, and the Search Warrant Statement (Return of Service) are attached.
4. The Affidavit states that the Defendant(s) is Peter T. Littlefair; the Affidavit further states that certain "goods" may have been in the unlawful and constructive possession of the Defendant(s) in:
 - A. "An underground container";
 - B. "The Defendant's residence, a single wide mobile home painted

white in color with green trim and a deck extending from the south side";

C. "Unpainted wooden outbuildings ...";

D. "Camper trailer, unknown age ...";

(A), (B), (C), and (D) being on or near the premises of M. P. 0.03L (31) Gordon Road, Stabler, Washington.

5. Mr. James Barresse, Sr., rents from Peter Littlefair and has resided in "the single wide mobile home painted white in color", etc. on the premises of M. P. 0.03L (31) Gordon Road for well over a year. He resides there with his son, Zachary. That is a matter of public record, as shown in Cause No. 94-3-000-204 entered in this court on November 4, 1994. Said action was a dissolution action.

6. I am informed that Peter Littlefair resided in the camper trailer above referenced, also located on the premises.

7. Last year, a deputy sheriff contacted Mr. Barresse, Sr., at his residence and asked for Mr. Barresse's assistance in locating a lost kayaker.

8. James Barresse, Sr., is not mentioned in the Affidavit for Search Warrant or in the Search Warrant.

9. I understand that Mr. Barresse's door was unlocked, but that the officers broke down the door to his bedroom and broke into a file cabinet in that bedroom.

10. I understand that the officers realized soon after entry that the subject single wide mobile home was Mr. Barresse's residence and not the residence of Peter Littlefair. In any event, they should have so realized soon after entry.

11. I understand that no evidence of drug use or sale was found in James Barresse, Sr.'s residence.

12. Mr. Barresse informs me that the officers seized the following items: computer, printer, keyboard, currency, a bucket of change, all personal and confidential files, firearms, phone answering machine and prescription medicine. Some of those items, as well as others, are shown in the inventory included in the Return of Service.

13. Mr. Barresse informs me that he called the Skamania County Sheriff's office upon arriving home and spoke with Detective Arne Gonser. Mr. Barresse

2 informs me that Detective Gonser informed him that it could take months to
3 sort through Mr. Barresse's things but that if Mr. Barresse would come in and
4 talk to Detective Gonser, that would expedite things.

5 14. I called James Hagarty, Chief Deputy Prosecuting Attorney for Skamania
6 County, on the morning of Tuesday, January 2, 1996, explained my
7 understanding of this matter and asked that Mr. Barresse's items be returned.
8 Mr. Hagarty informed me that there was some question as to the residence
9 of Mr. Barresse's oldest son and that a condition of that son's release to
10 unrelated charges was to have no firearms. Mr. Hagarty also informed me
11 that he would speak to the Sheriff about the matter.

12 15. Mr. Hagarty and I spoke later that same day and Mr. Hagarty informed me
13 that because the power went from the meter that had been tampered with to
14 Mr. Barresse's residence and then to the camp trailer in which Mr. Littlefair
15 resides the sheriff and prosecutor would not return Mr. Barresse property.

16 16. Mr. Barresse informs me that every month when he paid the rent to Pete
17 Littlefair, he also paid a sum for power, which amount varied from month to
18 month, was stated by Pete Littlefair and that Mr. Barresse never questioned
19 the amount. The meter is not in Mr. Barresse's name and to the best of Mr.
20 Barresse's knowledge is in Peter Littlefair's name.

21 17. The subject Search Warrant includes a search of the Defendant's residence; it
22 does not include a search of Mr. Barresse's residence. Because there were no
23 grounds to conduct a warrantless search of Mr. Barresse's residence, the
24 search was unlawful and the property of Mr. Barresse that was seized, was
25 seized illegally. Thus, Mr. Barresse's property should be returned to him
26 immediately.

27 I DECLARE UNDER THE PENALTY OF PERJURY UNDER THE LAWS
28 OF THE STATE OF WASHINGTON THAT THE FOREGOING IS TRUE
AND CORRECT.

AND

- (11) Electronic equipment, such as computers, telex machines, facsimile machines, currency counting machines, telephone answering machines, and related manuals used to generate, transfer, count, record and/or store the information described above. Additionally, computer software, tapes and discs, audio tapes, electronic recording media, and the contents therein, containing the information generated by the aforementioned electronic equipment; and communications devices, including pagers and mobile telephones.

AND

- (12) Photographs of the crime scene and to develop any photographs taken of the crime scene, including still photos and video cassette recordings and to develop any undeveloped film located at the residence.

AND

- (13) Evidence of the crime of Theft of Service (Electrical Power) and/or meter tampering.

Are on this 28TH day of DECEMBER, 1995, in the unlawful and constructive possession of the defendant(s) in:

- (A) An underground container unknown size or shape located at the end of Gordon Road, Stabler, Washington. This container is physically located approximately 50 feet to the south of the defendant's residence on Longview Fibre property. This container has two (2) 55 gal drums on top, one being a venting system and the other is some sort of locked access into the container. The container is completely buried underground with a worn path leading from the 55 gal access barrel directly to the defendant's residence.

(B) The defendant's residence, a single wide mobile home painted white in color with green trim and a deck extending from the south side.

(C) Unpainted wooden outbuildings located on the property. The exact number is unknown, but believed to be four (4).

(D) Camper trailer, unknown age, located on this property. The physical address of the defendant's residence, outbuildings, and Camper trailer is MP 0.03L (31) POB 72 Gordon Road, Stabler, Washington. 98610.

AND

Any vehicles on the aforescribed property or property curtilage that are associated with the defendant or any of the defendant's co-conspirators.

AND

Any outbuildings, garages, sheds, storage units, or the like located on the aforescribed property not specified above.

I am informed and aware, based upon the following:

I am a Deputy Sheriff with the Skamania County Sheriff's Department and have been with the Sheriff's Department for over six years. I am currently assigned as a Detective with the Clark/Skamania Drug Task Force and have been with the Task Force since August 1991. I have been involved in at least 475 drug cases resulting in the arrest of more than 350 persons for drug violations. I have investigated drug cases involving the manufacture of and/or conspiracy to manufacture, and/or delivery of controlled substances. I am conversant with the procedures, techniques, and items used by persons involved in the illegal manufacturing, delivery, and possession of controlled substance. Based on my training and experience I am familiar with many aspects of drug investigation and the area of drug use. This includes but not limited to, the preliminary identification of controlled substances, the appearance and smell of controlled substance, street terminology associated with the use of controlled substances, methods of manufacturing controlled substance, methods of growing and equipment used in the manufacturing of marijuana. I have numerous purchases of controlled substances while acting in an undercover capacity, including but not limited to marijuana and/or methamphetamine. On all of these occasions I have visually identified the controlled substances, with said observations having been subsequently confirmed by Reagent field test kits and/or Crime Lab analysis. I have been present on at least 60 search warrants involving indoor marijuana growing and manufacturing operations, in which persons were present and property was seized. I have been on at least 55 outdoor marijuana growing operations. I am familiar with the sale and prices of controlled substances. I have had in excess of 120 hours of drug enforcement training and identification through the United States Drug Enforcement Administration. Further I have received 38 hours of drug enforcement training and identification of marijuana and marijuana growing operations through the Western States Intelligence Network in Sacramento, California. I have in excess of 100 hours of helicopter marijuana eradication through the Washington State National Guard, 24 hours of marijuana overflight training through the Oregon State Police. I have 440 hours of basic law enforcement training through the Washington State Criminal Justice Training Center. 40 Hours of International Outlaw Motorcycle Gang training in Portland, Oregon. 60 hours of S.W.A.T. training, 16 hours of United States Customs Service training and I am cross-designated as a Federal United States Custom Agent through the U.S. Customs Blue Lightning Task Force. I am also a Commissioned Deputy Sheriff in the State of Oregon through the Multnomah County Sheriff's Department. Additionally I have had regular monthly training that consists of but not limited to various aspects of police work, including criminal investigation, search and seizures and investigations of violations of the Uniform Controlled Substance Act of the State of Washington.

I have identified the smell of growing marihuana both indoor and outdoor. On at least 115 occasions I have smelled growing marihuana. Further on at least 30 occasions while in the execution of past search warrants, I could smell the odor of growing marihuana from the outside of the building to be searched. On all of these occasions growing marihuana plants were found. I can identify marihuana by sight. I can identify the actual equipment used to grow marihuana from my training knowledge and experience. I have also identified growing marihuana plants from the air on at least 30 separate occasions.

In this official capacity:

In January of 1990 Detective Harold Warren, (Now the Sheriff of Skamania County) along with a confidential informant went to the Peter Littlefair residence at the end of Gordon Road and purchased an 1/8 th of a ounce (green bud) marihuana for \$30.00. Detective Warren searched the informant prior to the controlled buy for money, weapons and/or contraband and none were found. Detective Warren gave this informant money that was previously withdrawn from the Inter agency drug fund. The informant left Detective Warren and contacted the defendant Littlefair. The informant was an invited guest and was allowed inside Littlefair's residence. The informant purchased the marihuana from Peter Littlefair then left the residence and met Detective Warren. The informant gave Detective Warren the 1/8th of marihuana. Detective Warren again searched the informant for money, weapons and/or contraband and none were found. This purchase of controlled substances was used for a reliability buy for the informant and Littlefair was not charged with a delivery. Green bud of marihuana means fresh or freshly harvested marihuana. Sheriff Warren has over 20 years of law enforcement experience. Sheriff Warren served several years as a Detective assigned to the Clark/Skamania Drug Task Force. Sheriff Warren has received hundreds of hours of drug enforcement training throughout his career. Sheriff Warren can also identify various controlled substances by sight and smell including but not limited to marihuana.

Further in February of 1992 Raymond Blaisdell (Retired Sheriff of Skamania County) advised me that he had received information from a confidential and reliable informant saying that Peter Littlefair is involved with growing marihuana, meter tampering, and is trafficking controlled substances through the Portland International Airport.

Further in March of 1992, I conducted surveillance on Littlefair's residence to try to find out where Littlefair was getting the marihuana. On March 9th 1992 Detective Monty Bruttner and Affiant drove to the end of Gordon Road to further the investigation. At Peter Littlefair's residence nobody was home. At this time there was no indication that a marihuana grow was at this residence with the following exception: I looked at the P.U.D. meter which was on the same side of the house that the main entrance is on and noticed that the seal on the meter was broken. Through my training, knowledge and experience a tampered meter might indicate a power bypass or a person trying to turn back the dials so it looks like they are not consuming so much power. High power use is needed to run the high pressure lights and other equipment needed to grow indoor marihuana.

Further in November 1992 I received a phone call from a Detective Paul Groza. Detective Groza is a Federal U.S. Drug Enforcement Postal Inspector assigned to the Portland International Airport. Detective Groza asked me if I had knowledge of Peter Littlefair. Detective Groza said that a subject who they believed was Peter Littlefair mailed out two separate packages at the Portland Airport. One package was shipped to New Jersey and the other to Louisiana. Both packages were intercepted and found to contain 2 ounces and 2.8 ounces of green marihuana. Detective Groza advised me that they did not have enough information to file charges against Littlefair.

Further in January of 1993 I received an anonymous tip saying Peter Littlefair was again dealing controlled substances. No more information was received to substantiate this complaint.

Further in January of 1995 I was contacted by a confidential citizen informant who resides in Skamania County. This informant received information from an unwitting individual that Peter Littlefair's marihuana grow was located on Longview Fibre property just across the road from his residence. The informant said this is why law enforcement has not located it. The grow is completely underground and is concealed. The informant advised me to go onto Longview Fibre Land and find a pile of wood and a couple of barrels next to Littlefair's driveway and we would find his grow.

The Skamania County Sheriff's Office has permission to be on all Longview Fibre land for official business. To verify this I called a Longview Fibre Security Supervisor named John Steven Hansen. Mr. Hansen confirmed the permission to be on their property. Next I went to the Skamania County Assessor Office and obtained a map of the area. Peter Littlefair owns two parcels side by side to the north of Gordon Road. Longview Fibre owns all the property to the south of Gordon Road. See attachment #1.

Further on January 23rd 1995 Deputy Chris Ford and I entered Longview Fibre Property and located an area described by the informant. Approximately 10-15 feet to the south of Gordon Road was several stacks of lumber and misc. debris. On top of a small grassy knoll was two (2) 55 gal drums. Inspecting the drums I located what appeared to a venting system under one drum and the other drum was a false burn barrel that was hollow. Under the hollow drum was a round metal can with a padlocked lid. The area had a very faint odor of what I believed to be marihuana but due to the strong winds I was not comfortable obtaining an affidavit on odor alone. Also a very worn path was observed from the barrel that had the locked lid leading down the knoll directly to the defendants residence. This area appeared to be used quit extensively. The way this system was set up Littlefair could leave his residence, walk up the short path and use the excuse of burning trash in a burn barrel to gain access into the grow. This would allow Peter Littlefair to obtain marihuana and to conceal the grow. Also note Littlefair lives at the end of Gordon Road and no other residences are close to this location.

Further on January 24th 1995, March 23rd, 1995, May 12th 1995, June 13th 1995, I conducted several hours of surveillance on Longview Fibre property with negative results. The marihuana growing operation appeared to be shut down. After receiving a copy of the Skamania County Pioneer, I observed an article about Peter Littlefair. Littlefair is said to be a competitive Dart Thrower. In 1995 he (Littlefair) has been traveling and competing in the National Dart Association. This may explain why the grow was not in operation.

Further in the first part of December 1995 I received an anonymous tip saying that Peter Littlefair was back in the area and possibly mailing out marihuana through the Carson Post Office.

Further on December 27th 1995 Reserve Officer Will Harryman and I went back to the Longview Fibre property. At approximately 20 feet to the west from the barrels I detected a very strong odor of green marihuana. I stayed at this location for several minutes and detected the odor of marihuana on least 5 occasions. I went to the venting barrel and detected no odor. I went back to my original position and again smelled a strong odor of green marihuana. Approximately 10-15 feet away from the barrels under a stack of lumber I located a black 4"-6" plastic pipe. This pipe had warm air blowing out of it with a very strong odor of green marihuana. A fan or blower was also heard from this location. The weather conditions on this date were ice and snow. The location of this vent under the lumber made it very concealable because it was protected from the elements. Both Deputy Harryman and I smelled green growing marihuana from this location on Longview Fibre Property. The worn path was observed leading away from the barrels but due to the heavy snowfall, no footprints were visible. Deputy Harryman is a commissioned Reserve Officer for the Skamania County Sheriff's Dept. Deputy Harryman has received in excess of 220 hours of basic law enforcement training. Deputy Harryman has been present on at least 5 marihuana grows and has smelled growing marihuana.

Based on my training and experience, the defendants power consumption, and the substantial increase over the previous occupants power consumption, it is indicative of the use of high intensity halide or sodium lights which are used to grow marihuana indoors. Based on my training and experience I am aware that individuals involved in the illegal growing and manufacturing of marihuana commonly use 1000 watt halide or sodium lights. To maximize the fullest potential of the illicit growth of marihuana these lights are left on for periods of up to 18 hours a day, seven days a week. Depending on the number of lights being used, which is dependent on the size and number of plants being grown, there is a substantial increase of electricity consumed. Also subjects bypass or modify electric meters to conceal the amount of power consumed.

According to the Skamania County PUD records Peter Littlefair has the power account on Gordon Road. The PUD records show the following power consumption in 1995.

02/24/95	usage 1020 kw
04/21/95	usage 1375 kw
06/23/95	usage 958 kw
08/24/95	usage 321 kw
10/25/95	usage 868 kw
12/27/95	usage 2029 kw

Through my training, knowledge and experience this small amount of power consumption might indicate a power bypass or an alternate power source.

AND

On December 27th 1995, I requested a drivers license check on Peter Littlefair through the Washington State Dept. of Licensing. I received information that a Washington State drivers license showed Peter Littlefair has a listed address of Gordon Road-Hemlock POB 72 Carson, Wa. 98610-0072. Littlefair shows a valid Driver License in the state of Washington.

Peter Littlefair shows the following criminal history:

- 1975 Arrested for Prohibited Weapon and Possession of Marihuana—CD Dismissed Verona PD New Jersey.
- 1976 Arrested for Shoplifting—Guilty, West Caldwell PD, New Jersey
- 1976 Arrested for Larceny—Susp 6 month confinement, Montville Township PD New Jersey
- 1977 Arrested for Prohibited Weapon, Public Offender Crimes, Trespassing, Aggravated Assault, Assault on Police Officer, Possession of Marihuana.—Guilty on Simple Assault and Possession of Marihuana. Verona PD New Jersey.
- 1978 Theft Urbana, Illinois—No Disposition

Based on my training, knowledge, and experience, marihuana, once harvested must be dried prior to being packaged or it will rot. I have found that persons involved in the growing of marihuana in other than their residence, will in nearly every case, maintain their supply of dried marihuana in their residence.

Further based on your Affiant's training, knowledge, and experience it is common for persons who deal in illicit drugs to often purchase, manufacture, or obtain large quantities of the drug and then break it down into smaller quantities which they offer for sale. This larger amount is often times kept at their residence for safekeeping, and they draw upon this larger amount depending on the demands of their customers.

Your Affiant has also found it common for persons involved in the distribution of controlled substances to secrete controlled substances within their residences, in vehicles, and in outbuilding, and in the case of growing marihuana to have the plants growing in remote locations upon their real property or adjacent property. I have also found it common that the person(s) keep records of their techniques and/or unique care of a crop so that the process can be repeated, and the grower can keep an accurate record of marihuana produced. Your Affiant has also found it common that persons involved in a conspiracy to use the telephone and/or pagers to contact other conspirators as to his or her progress in their operation of a distribution network.

Your Affiant has also found it common for persons in the illegal distribution of drugs to make every effort to disguise their assets. This is done through false identification or through the assistance of third parties willing to lend their names or shelter assets and/or banks, legitimate financial institutions, savings accounts, checking accounts, safety deposit boxes, etc. Also it is common in this type of transaction for there to be some form of record of these transactions, often in code or in cryptic form, as well as the turning of profits or proceeds from illegal distribution of drugs into assets, to include real estate, precious metals, jewelry, stocks, bonds, and U.S. Currency. These individuals avoid placing large amounts of cash into legitimate institutions and avoid C.T.R. (Cash Transaction Reports) requirements while maintaining readily available assets which can easily be reconverted back into cash. These transactions must, of necessity involve records and paper work. Also records, pertaining to general financial condition, employment, or lack of employment thereof, are direct evidence proving or refuting claims of legitimate income.

I have found that it is common for persons involved in use and sale of controlled substances to secrete controlled substances and records, concerning the sale and distribution of the substances in and about their residences and property, to include unattached buildings and vehicles, and to actually bury their substances and/or proceeds on the property of their residences, for the purpose of foregoing discovery by law enforcement, and/or person that might intend to steal their substances.

I have also found in my training, knowledge and experience that items of identification located in the residence have often been critical in establishing dominion and control over certain parts of residences where controlled substances may be located. I have also found that in every search warrant that I have been present on, there is generally items of identification present such as, but not limited to, canceled checks, utility payment stubs, and other bills which contain the name and address of persons, in addition to papers, documents, computer software, or other paperwork to record the sale and transactions of controlled substances.

Further proceeds of the sales and/or distribution of drugs are often found which include not only monies, but items taken in trade of purchase with monies earned through these illicit activities, and although these items are subject to civil forfeiture, their evidentiary value in showing an ongoing conspiracy is invaluable.

Further your Affiant has found it common for persons engaged in the distribution of drugs in general to maintain records, often cryptic in nature, of monies owed to them for drugs which are given out on consignment. Also records are often found identifying purchasers and/or potential co-conspirators, such as phone bills, letters, address books, and the like. These records can be stored on computers and computer disks.

Further, because of the economic value of controlled substances, as well as profits generated by its distribution, individuals engaging in this business arm themselves with weapons, including firearms to protect themselves, their business, their controlled substances, and assets from competitors and potential thieves. Additionally, because of the illegal nature of the controlled substances business, individuals engage in this business are unwilling to contact law enforcement agencies to report crimes against themselves or the illegal business. Because of the unavailability of law enforcement protection, weapons are tools of the drug distribution trade.

Further your Affiant has also found it common for individuals engaged in drug trafficking to utilize computers, computer software, tapes and discs, audio tapes, and other electronic recording media, telex machines, and other communications devices including pagers and mobile telephones, to assist them in maintaining records of profits, as well as to communicate with co-conspirators in a manner as to avoid being detected by law enforcement, i.e. avoid tapped phones, or monitoring of incoming mail.

Also in my training and experience I have found that individuals involved in the sale and distribution of controlled substances often secrete the proceeds from the sales in legitimate financial institutions such as banks, savings accounts, checking accounts, and safety deposit boxes. These people will attempt to conceal their illegal profits by the purchase of such legal financial instruments as savings bonds, other types of bonds, stocks, jewelry, and U.S. Currency.

Based on my training, knowledge and experience, I believe that there is marijuana at the aforescribed location.

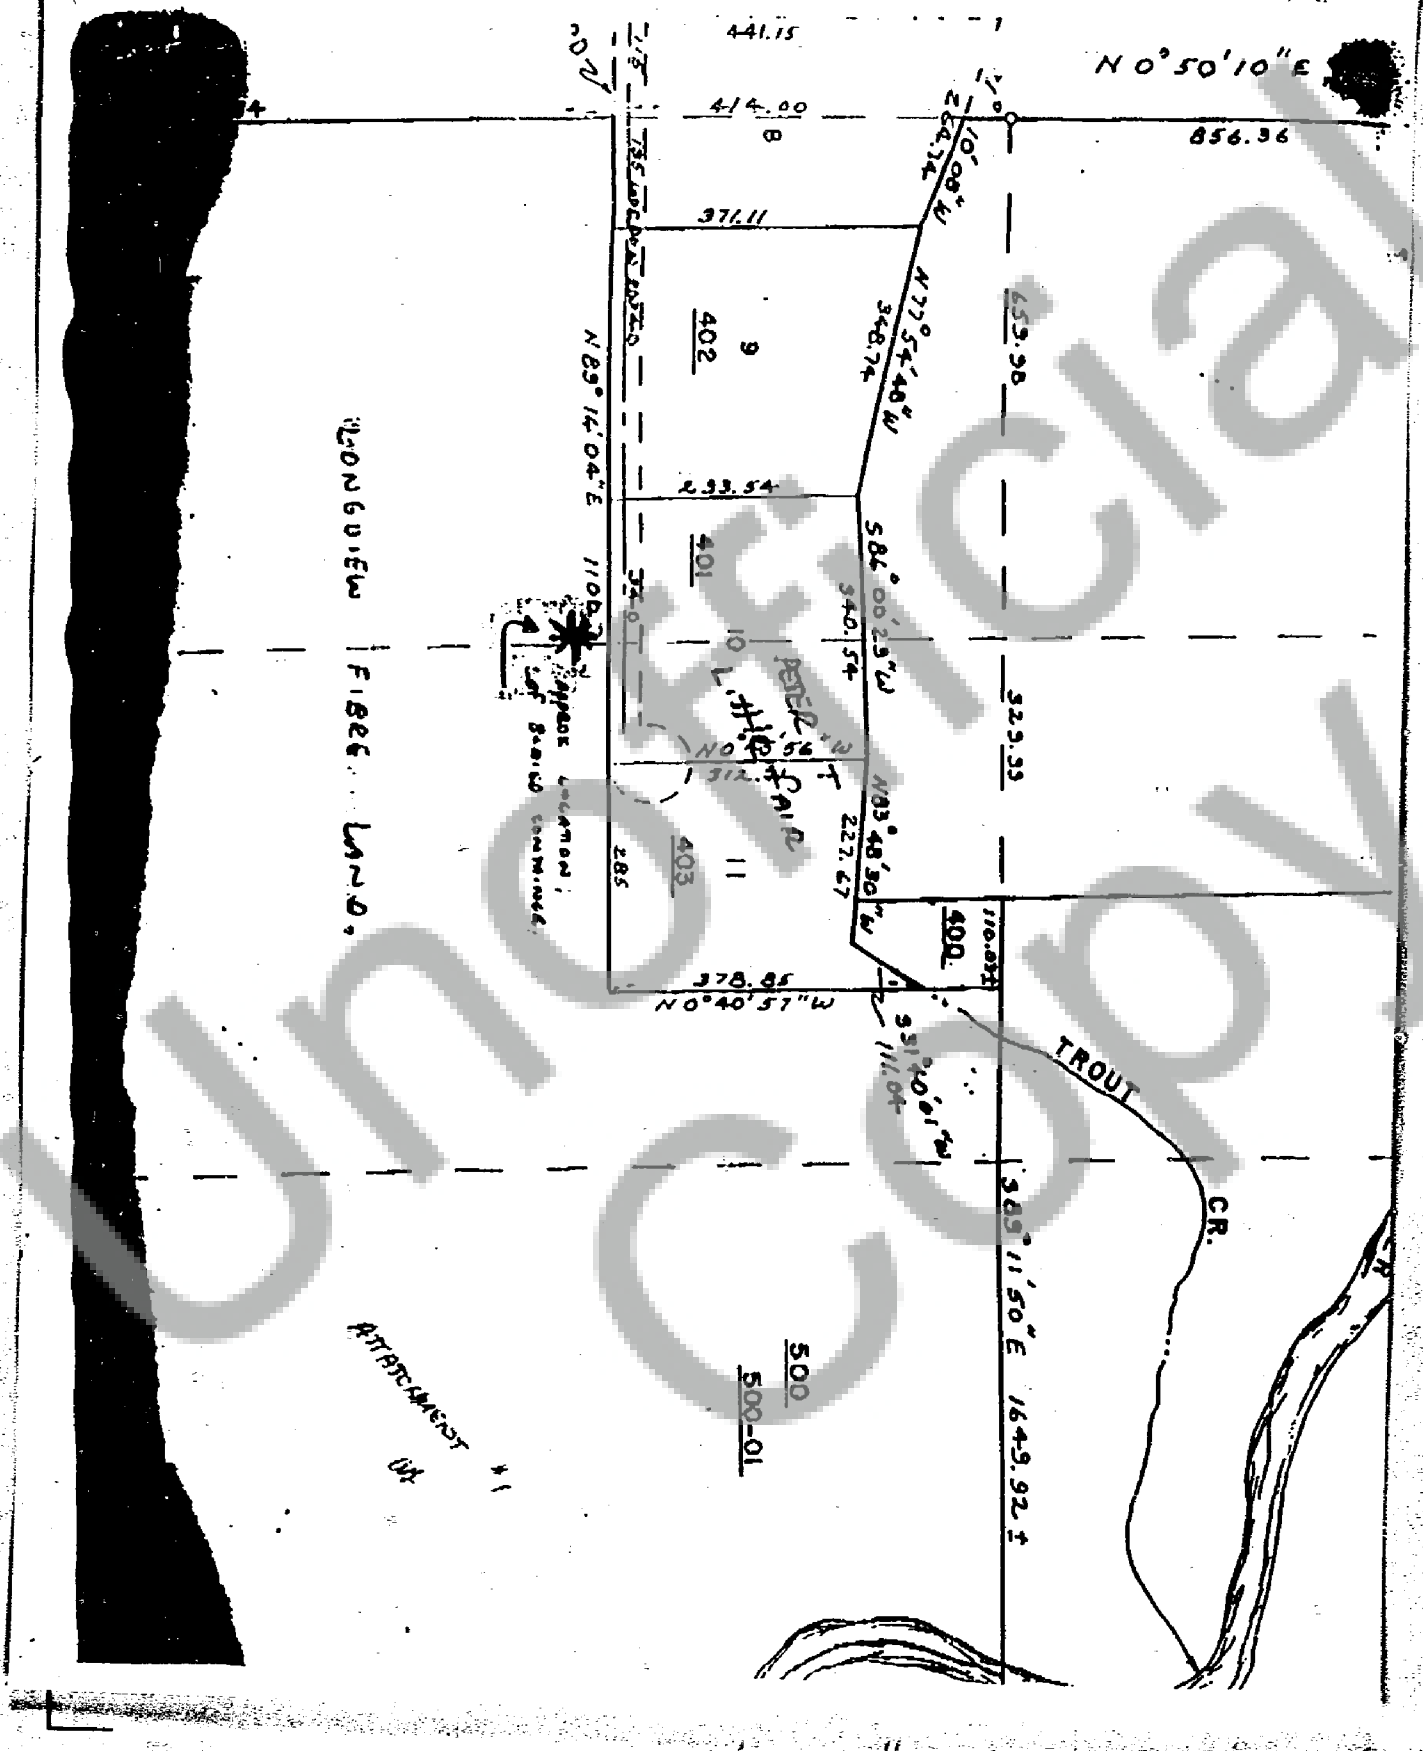

Based on the foregoing I pray the court for issuance of a Search Warrant for the aforescribed location and/or persons.
