SURVEY IN SW¹/₄SW¹/₄ SEC. 23, T.3 N., R.8 E., W.M. BERGE CEMETERY

TRAVERSE STATEMENT & SURVEY NARRATIVE: PRIVATE
A closed field traverse for the parcel shown was made with a ten-second total station and related measuring equipment, all of which met state standards (WAC 332-130-090) at the time of this survey. Acceptable raw angular and distance closures in excess of 1:100000 were balanced by compass adjustment where necessary to effect mathematical closure. Fence line encroachments noted during this survey have been mitigated by boundary line adjustment descriptions included within the list of deeds. The field portion of this survey was conducted during the period of February 9, 1993 to March 14, 1996 and included feature ties, grid establishment, easement ties and additional corners for boundary line adjustment at various times during that period.

A large scale original of this project was provided to the cemetery district.

DESCRIPTION OF ENTIRE PARCEL is created by the following deed records: B.L. P.51; B.118, P.979; B. 135, Pp.360,361.
