AUDITOR CARY M. OLSON

TRAVERSE STATEMENT & SURVEY NARRATIVE: A closed field traverse for the parcel shown was made with a ten—second total station and related measuring equipment, all of which met state standards (WAC 332-130-090) at the time of this survey. Acceptable raw angular and distance closures in excess of 1:10000 were balanced by compass adjustment where necessary to effect mathematical closure. No encroachments, except where noted, were found during this survey, the purpose of which was to establish exterior property corners and define boundary lines. Field work was conducted during the period of April 22-23, 1996.
