ADDISON  
GARY M. OLSON

established in 1991–92 from prior work and Reference 3 as shown. Closed point to point control was made from ties to three of those corners and those of Reference 2, using a 5-second total station and related measuring equipment. All equipment and raw data for this survey met minimum state standards as per WAC 332-130. Compass adjustment procedures were used where necessary to effect mathematical closure. The east line of the EAWM/ESNW was posted for fence line reconstruction and a monument near the northeast corner of that parcel was established on the property line at a point slightly South of the R/W line of Scoggins Road. Current work for fence line conducted between October, 1996 and April, 1997.

Description of adjusted parcel boundary: A portion of the parcel described in that particular document recorded in Book 73 at Page 537 of Deeds and described as: The South 50 feet of the West 199.30 feet of the E W NE SW Section 20, T3N, R10E, W4N, Skamania County, Washington as measured along the exterior boundaries thereof, SUBJECT TO an easement for ingress and egress over and across the East 16 feet of said West 199.30 feet
