Director's Decision

APPLICANT: Mary Vitulski
FILE NO.: NSA-98-42
PROJECT: Replacement home
LOCATION: 101 Holmes Road off of Berge Road, in Home Valley, Section 27 of T3N, R8E, W.M., and identified as Skamania County Tax Lot # 3-8-27-100.
ZONING: General Management Area, Residential (R-5)
DECISION: Based upon the entire record before the Director, including particularly the Staff Report, the application by Mary Vitulski, described above, subject to the conditions set forth in this Decision, is found to be consistent with Title 22 SCC and is hereby approved.

Although the proposed development is approved, it may not be buildable due to inadequate soils for septic and/or lack of potable water. These issues are under the jurisdiction of Skamania County's Building Department and the Washington State Health District.

Approval of this request does not exempt the applicant or successors in interest from compliance with all other applicable local, state, and federal laws.

CONDITIONS OF APPROVAL:

The following conditions are required to ensure that the subject request is consistent with Skamania County Title 22. This document, outlining the conditions of approval, must be recorded in the deed records of the Skamania County Auditor in order to ensure notice of the conditions of approval to successors in interest. SCC §22.06.050(C)(2).

- 1) All developments shall be consistent with the enclosed site plan, unless modified by the following conditions of approval. If modified, the site plan shall be consistent with the conditions of approval.
- 2) The applicant shall either de-commission the existing single-wide mobile home as a residence or remove it entirely from the property within 30 days of the issuance of a placement permit for the replacement double-wide mobile home. The County Building Inspector shall assure that all modifications to the single-wide mobile home to de-commission it as a residence are completed in accordance with all State and County Building Codes.
- 3) All buildings shall be surrounded by a maintained fuel break of 50 feet. Irrigated or fire resistant vegetation may be planted within the fuel break, including green lawns and low shrubs (less than 24 inches in height). Trees should be placed greater than 15 feet between the crown and pruned to remove dead and low (less than 8 feet) branches. Accumulated leaves, needles and other dead vegetation shall be removed from beneath trees.
- 4) Hazardous fuels shall be removed within the fuel break area.
- 5) Buildings with plumbed water systems shall install at least one standpipe at a minimum of 50 feet from the structure(s).
- 6) A pond, stream, tank or sump with storage of not less than 1,000 gallons, or a well or water system capable of delivering 20 gallons per minute shall be provided. If a well pump is located on-site, the electrical service shall be separate from the dwelling.
- 7) Access drives shall be constructed to a minimum of 12 feet in width and not exceed a grade of 12 percent. Turnouts shall be provided at a minimum of every 500 feet. Access drives shall be maintained to a level that is passable to fire equipment.
- 8) Telephone and power supply shall be underground.
- 9) Roofs of structures should be made of fire-resistant materials, such as metal, fiberglass shingle or tile. Roof materials such as cedar shake and shingle should not be used.
- 10) Any chimney or stovepipe on any structure for use with a woodstove or fireplace should be screened with no coarser than 1/4 inch mesh metal screen that is noncombustible and corrosion resistant and should be equipped with a spark arrestor.

- 11) All structural projections such as balconies, decks and roof gables should be built with fire resistant materials equivalent to that specified in the Uniform Building code.
- 12) Attic openings, soffit vents, foundation louvers or other ventilation openings on dwellings and accessory structures should be screened with no coarser than 1/4 inch mesh metal screen that is noncombustible and corrosion resistant.
- 13) Within 30 days of the issuance of a placement permit for the replacement home, the Department shall conduct a review of the development to assure compliance with Conditions # 3-12, above.
- 14) All existing tree cover shall be retained as no trees need to be removed for placement of the double-wide mobile home.
- 15) The proposed development shall maintain a front yard setback of at least 45 feet from the centerline of a public or private road or 15 feet from the front lot line, 5 feet from the side yard lot lines and 15 feet from the rear yard lot lines.
- 16) The following procedures shall be effected when cultural resources are discovered during construction activities:
 - a) Halt Construction. All construction activities within 100 feet of the discovered cultural resource shall cease. The cultural resources shall remain as found; further disturbance is prohibited.
 - b) Notification. The project applicant shall notify the Planning Department and the Gorge Commission within 24 hours of the discovery. If the cultural resources are prehistoric or otherwise associated with Native Americans, the project applicant shall also notify the Indian tribal governments within 24 hours.
 - c) Survey and Evaluations. The Gorge Commission shall arrange for the cultural resources survey.

Dated and Signed this 31 day of July, 1998, at Stevenson, Washington.

Harpreet Sandhu, Director
Skamania County Planning and Community Development.

NOTES

Any new residential development, related accessory structures such as garages or workshops, and additions or alterations not included in this approved site plan, will require a new application and review.
