**CONDITIONS OF APPROVAL:**

The following conditions are required to ensure that the subject request is consistent with Skamania County Title 22. This document, outlining the conditions of approval, must be recorded in the deed records of the Skamania County Auditor in order to ensure notice of the conditions of approval to successors in interest. SCC §22.06.050(C)(2).

- 1) All developments shall be consistent with the enclosed site plan, unless modified by the following conditions of approval. If modified, the site plan shall be consistent with the conditions of approval.
- 2) Grading shall not exceed 100 cubic yards. All cut banks and fill slopes shall be re-seeded with native vegetation prior to the issuance of an occupancy permit or prior to final inspection for the home.
- 3) The color of the deck may match the color of the existing house. If the applicant chooses not to match the color of the house, then dark and either natural or earth-tone color samples shall be submitted and approved by this Department prior to the issuance of any building or placement permits.
- 4) Exterior lighting shall be directed downward and sited, hooded and shielded such that it is not highly visible from key viewing areas. Shielding and hooding materials shall be composed of non-reflective, opaque materials. Opaque means that it does not allow light to pass through the shield or hood. All lights should be hooded and shielded so as to have a luminary with less than a 90 degree cutoff.
- 5) All existing vegetation, except that which is necessary for site development, safety purposes or as part of forest management practices shall be retained and maintained in a healthy condition. Dead or dying trees should be replaced with same species in approximately the same location.
- 6) All of the above conditions relating to visual subordination shall be satisfied prior to final inspection as there are not any special conditions that would require additional time to achieve compliance.
- 7) Property line setbacks shall be: Front yard - 45 feet from the centerline of the street or road or 15 feet from the property line, whichever is greater; Side yard - 5 feet; Rear yard - 15 feet. All structures, except fences, including eaves, awnings and overhangs should be required to meet these setbacks.
- 8) The following procedures shall be effected when cultural resources are discovered during construction activities:
  - a) Halt Construction. All construction activities within 100 feet of the discovered cultural resource shall cease. The cultural resources shall remain as found; further disturbance is prohibited.
