TRAVERSE STATEMENT & SURVEY NARRATIVE: A closed field traverse for the parcel shown was made with a Sokkia five-second total station and related measuring equipment all of which met State standards of WAC 332-130 at the time of this survey. Acceptable row angular and distance closures in excess of 1:5000 were obtained by compass adjustment where necessary to effect mathematical closure. Physical opportunities which may be in conflict with existing conditions or items of record are noted as shown.

Field work was conducted during the period of Feb. 25, 1998-Feb. 2, 2000. Adjustments were made to some inholdings to improve common boundary lines and are referenced by Auditor File Number.
