TRAVERSE STATEMENT: A closed point—to—point field traverse for the parcel shown was made with a Sokkia five—second total station and related measuring equipment, all of which met State standards of WAC 332—130 at the time of this survey. Distance closures in excess of 1:5000 to found monuments from Reference 1 were deemed acceptable. Initial field work was conducted during the period of November 29—December 17, 2001. Additional ties made November 22nd and December 11, 2002 for this project.

SURVEY NARRATIVE: Prior work with regard to this parcel included road ties, contouring and corner recovery during the above period. Generally, the property lines between Shaddox Springs Road and the flume easement are posted with white fibreglas rods.
