TRAVERSE STATEMENT: A closed field traverse for the parcel shown was made with a Sokkio five-second total station and related measuring equipment, all of which met State standards of WAC 332-130 at the time of this survey. Acceptable raw angular and distance closures in excess of 1:10000 required no adjustments. Physical appurtenances which may be in conflict with existing conditions or items of record are noted or depicted. The intent of this project is to create an additional residential building lot.

SURVEY NARRATIVE: Field work began in 2001, when project was put on hold. Monumentation was completed on October 23, 2003.
