

SURVEY in NW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 11, T3N, R9E, W.M.
in Lot 2 of the Morrill Short Plat

TRAVERSE STATEMENT: A closed field traverse for the parcel shown was made with a Sokkia Set-3100 total station and related measuring equipment, all of which met State standards of WAC 332-130 at the time of this survey. Acceptable row angular and distance closures in excess of 1:10000 required no adjustments. Physical appurtenances which may be in conflict with existing conditions or items of record are noted or depicted. The intent of this project was to use a boundary line adjustment between Lots 1 & 2 of the Morrill Short Plat to create a smaller parcel for the improvements on Lot 2.

SURVEY NARRATIVE: Field work was conducted between April 21 - May 4, 2004.
