TRAVERSE STATEMENT: A closed field traverse for the parcel shown was made with a Sokkia Set-3100 total station and related measuring equipment, all of which met State standards of WAC 332-130 during the time of this survey. Acceptable raw angular and distance closures in excess of 1:5000 were balanced by compass adjustment to obtain mathematical closure. The intent of this project was for a survey to determine area, access route & bridge location and map two building sites.

SURVEY NARRATIVE: Field work was conducted between April 27, 1998 and July 21, 2004. A boundary line adjustment along the common line between the two parcels is being processed.
