Approval of this request does not exempt the applicant or successors in interest from compliance with all other applicable local, state, and federal laws.

CONDITIONS OF APPROVAL:

The following conditions are required to ensure that the subject request is consistent with Skamania County Code Title 22. **This document, outlining the conditions of approval, must be recorded by the applicant in the deed records of the Skamania County Auditor** in order to ensure notice of the conditions of approval to successors in interest. SCC §22.06.050(C)(2).

- 1) As per SCC §22.06.050(C)(2), this Administrative Decision **SHALL BE RECORDED** by the applicant in the County deed records prior to commencement of the approved project.
- 2) All developments shall be consistent with the enclosed site plan, unless modified by the following conditions of approval. If modified, the site plan shall be consistent with the conditions of approval. (See attached)
- 3) All structures, except fences, including eaves, awnings and overhangs shall meet the following setbacks: **Front yard:** 45 feet from the centerline of the street or road or 15 feet from the front property line, whichever is greater. **Side yard:** 5 feet. **Rear yard:** 15 feet. Setbacks are established from property lines, not fence lines. If any question arises regarding the location of the property lines, the applicant shall be required to hire a professional land surveyor to locate the property lines and mark them with temporary staking prior to a building permit being issued. Staking must remain during construction and all building inspections.
- 4) Only that grading which is necessary for site development (building pads, utilities, etc.) is permitted. All graded areas shall be re-seeded with native vegetation prior to final inspection by the Planning Department.
- 5) Planted vegetation shall be maintained to ensure survival.
- 6) The applicant shall retain the existing ten trees along the south and southeastern property lines, except for the two marked for removal for the driveway, in order to provide screening from KVAs and maintain visual subordination.
- 7) The structure shall be composed of nonreflective materials or materials with low reflectivity.

- 10) The existing tree cover shall be retained as much as possible except as is necessary for site development, safety purposes or as part of forest management practices.
- 11) The exteriors of the structures shall be dark and either natural or earth tone in color, such as the approved colors submitted to the Planning Department (Old Pewter, Black Lead, Copley Gray and Estate Gray). If the applicant chooses to change the color of the structure, color samples shall be submitted to the Planning Department for approval prior to the issuance of a building permit.
- 12) The applicant shall meet all conditions of approval enacted to achieve visual subordination prior to final inspection by the Planning Department. A final inspection approval will not be issued until compliance with all conditions of approval; including visual subordination criteria have been verified.
- 13) The Planning Department will conduct at least two site visits during construction and at least one site visit for Final Inspection. One will be to verify the location of the structure as stated by the Administrative Decision. Each inspection may take up to four business days from the time of calling for the inspection. Inspections should be arranged by calling the Building Division at 509-427-3920.
- 12) The following procedures shall be effected when cultural resources are discovered during construction activities:
 - a) Halt Construction. All construction activities within 100 feet of the discovered cultural resource shall cease. The cultural resources shall remain as found; further disturbance is prohibited.
