To Whom It May Concern:

Paul is continuing to have severe neck, shoulder, wrist and low back pain. It would be very beneficial for him to continue physical therapy. He has history of arthritis but also had incident in July that triggered increased pain. He was doing physical therapy after that incident in August but feels that one of the therapists that was treating him caused increased pain. He has switched therapy to Skyline therapy and I have recommended additional treatment for at least 4 weeks. I have received notes from therapist at Skyline and agree that as long as he is able to make progress and received persistent relief of symptoms he should continue therapy.

Thank you in advance for your consultation of this patient. Please feel free to contact me if you have any further questions.

Sincerely,

Deana E. Dahl FNP

Still having pain in neck and lower back was
Reevaluated with Dr Deana Dahl
on 9-16-2008 she said I need about 4 more weeks
then will do a another valuation after that.
I changed Physical therapy. Because man treating me
was fired by Margaret Aris. Owner of Skamania
physical therapy.
