WHEREAS, it is the intention and purpose of the undersigned parties that the well and water distribution system shall be used and operated to provide an adequate supply of water for each of the properties connected thereto, for the domestic consumption of the occupants of said properties, and to assure the continuous and satisfactory operation and maintenance of the well and water distribution system for the benefit of the present and future owners, their heirs, successors and assigns of the properties connected thereto; and

WHEREAS, the well shall be built to be deemed by the parties hereto to be of adequate capacity to supply a single family dwelling on each of the parcels described herein with water from the well for all domestic uses of a single family residing therein; and

WHEREAS, the water from the well to be built shall undergo a water quality analysis from the State of Washington health authority, the cost of which will be borne equally by the parties, and will be determined by the authority to supply safe and potable water; and

WHEREAS, the parties hereto desire to enter this Agreement for the purpose of reducing to writing their respective rights and obligations pertaining to the drilling, building operation and maintenance of said well and water distribution system.

NOW THEREFORE, in consideration of the promises and covenants herein contained, it is agreed that the well and water distribution system situated on 21 Nesmith Road, Skamania, Washington 98648 (Parcel 1) shall be used by the parties to this Agreement, as well as by all future owners and occupants of said parcels, upon the following terms and conditions:

1. That until this Agreement is terminated, as hereinafter provided, the parties hereto, their heirs, successors and assigns, for the exclusive benefit of the respective parcels of real estate, and for the exclusive use of the household residing thereon, are hereby granted the right in common with the other parties to this Agreement, to draw water from the well located on 21 Nesmith Road, Skamania, Washington 98648 for domestic use.

2. That the owners or residents of the dwelling located on 82 Nesmith Road, Skamania, Washington 98648 (Parcel 2), as of the date of this Agreement shall:

Each respective share shall be determined by dividing the amount of each expense by two, it being understood that the supplying party and the supplied party shall pay an amount equal to one half (1/2) of the total of such necessary repair or replacement. Shared expenses include the cost of electricity for pumping, repairs and maintenance on said well and water distribution system.

That the cost of any removal or replacement of pre-existing site improvements on an individual parcel necessary for system operation, maintenance, replacement, improvements, inspection or testing, damaged as a result of repair of the well to be built or water distribution system maintenance will be borne by the owner of the affected parcel,

(1) That each of the parties to this Agreement does hereby grant to the other, his heirs, successors and assigns, such easements over, across and through the respective parcels as shall be reasonably necessary for the construction of the well, maintenance of water pipes, pumping equipment, mains, electrical wiring and conduit consistent with the purposes of this Agreement. 13. That in the event the referenced well to be built shall become contaminated and shall no longer supply water suitable for domestic consumption, or shall no longer supply water adequate for the needs of all relevant parties, or in the event that another source of water shall become available to the respective parcels, then the rights and obligations of the parties created by this Agreement shall cease and terminate in accordance with the terms and conditions hereinafter described.

14. That upon the availability of such other source of water, it is contemplated that 120 days is a reasonable time to be allowed to effectuate the necessary connections to the new source. Notices to terminate water source participation shall be served in writing 120 days prior to termination.

Upon termination of participation in this Agreement, the owner and occupant of each residence which is terminated from the Agreement shall have no further right to the use of the well. The terminated parties shall disconnect their respective lateral connection from said well system and shall have no further obligation to pay or collect for maintenance and related expenses incurred thereafter. The costs of disconnection from the well and water system shall be borne by the owner of the pertinent parcel.

16. That the undersigned parties shall permit periodic well water sampling and testing by a responsible authority at the request of an undersigned party, mortgagee or by governmental entity.
