Administrative Decision

APPLICANT: Skamania Co. Department of Public Works

PROPERTY OWNER: Skamania County

FILE NO.: NSA-11-29

PROJECT: To excavate the roadway down to bedrock, removing asphalt, guardrails, posts, pilings, sub-base materials, and to install a French drain, reconstruct a retaining wall which will now be approximately 220' in length and 35' in depth, and reconstruct the roadway. This project is proposed in order to remove the disturbed material of the slide area and to stabilize the road.

LOCATION: Hot Springs Avenue, Carson; Section 27 of T3N, R8E, W.M.

LEGAL: Skamania County Road Right-of-Way

ZONING: General Management Area- Open Space (OS).

DECISION: Based upon the record and the Staff Report, the application Skamania Co. Dept. of Public Works, described above, **subject to the conditions set**

Skamania County Community Development Department
File: NSA-11-29 (Skamania Co. Dept. of Public Works) Administrative Decision
Page 2

forth in this Decision, is found to be consistent with SCC Title 22 and **is hereby approved.**

Although the proposed development is approved, it may not be buildable due to inadequate soils for septic and/or lack of potable water. These issues are under the jurisdiction of Skamania County's Building Division and the Skamania County Environmental Health Division.

Approval of this request does not exempt the applicant or successors in interest from compliance with all other applicable local, state, and federal laws.

CONDITIONS OF APPROVAL:

The following conditions are required to ensure that the subject request is consistent with Skamania County Code Title 22. **This document, outlining the conditions of approval, must be recorded by the applicant in the deed records of the Skamania County Auditor** in order to ensure notice of the conditions of approval to successors in interest. SCC §22.06.120(C)(2).

- 1) As per SCC §22.06.120(C)(2), this Administrative Decision **SHALL BE RECORDED** by the applicant in the County deed records prior to commencement of the approved project.
- 2) All developments shall be consistent with the enclosed site plan, unless modified by the following conditions of approval. If modified, the site plan shall be consistent with the conditions of approval. (See attached)
- 3) A variance shall be granted to allow for the proposed project to occur within the buffer to the Wind River.
- 4) Only that grading which is necessary for site development (building pads, utilities, etc.) is permitted. All graded areas shall be re-seeded with native vegetation prior to final inspection by the Community Development Department.
- 5) Planted vegetation shall be maintained to ensure survival.
- 6) At a minimum, the trees planted for screening purposes shall be planted on 25-foot centers for the length of the retaining wall, and shall be staggered so as to create a natural appearance.
- 7) Trees planted for screening purposes shall be sized in a manner that they will render the retaining wall visual subordinate within five years from the commencement of construction.

Skamania County Community Development Department
File: NSA-11-29 (Skamania Co. Dept. of Public Works) Administrative Decision
Page 3

- 8) At least half (1/2) of any trees planted for screening purposes shall be species native to the setting. Such species include Douglas fir, grand fir, western red cedar, western hemlock, big leaf maple, vine maple, red alder, ponderosa pine, Oregon white oak and various native willows (for riparian areas).
- 9) At least half (1/2) of any trees planted for screening purposes shall be coniferous to provide winter screening.
- 10) The retaining wall shall be composed of nonreflective or materials with low reflectivity.
- 11) The Ultra Block retaining wall shall be dark earth tone in color. The dark brown proposed in the application materials is approved. Any proposed changes to this color shall be submitted for review by the Community Development Department prior to staining/painting.
- 12) Except as necessary for construction of access roads, building pads, leach fields, etc., the existing tree cover screening the development from key viewing areas shall be retained.
- 13) All natural vegetation shall be retained to the greatest extent practicable, including aquatic and riparian vegetation.
- 14) Temporary and permanent control measures shall be applied to minimize erosion and sedimentation when riparian areas are disturbed, including slope netting, berms and ditches, tree protection, sediment barriers, infiltration systems and culverts.
- 15) The applicant shall rehabilitate the riparian area to the original configuration including slope and contour to the maximum extent practicable.
- 16) The applicant shall rehabilitate the riparian area by planting native plant species including, hydro seed, and willow and alder saplings as approved by WDFW comments.
- 17) Rehabilitation and enhancement efforts shall be completed no later than 90 days after the buffer zone has been altered, or as soon thereafter as practicable.
- 18) The applicant shall monitor and take corrective measures to ensure that within three years after the buffer zone to the Wind River is rehabilitated that at least 75% of the replacement vegetation has survived.
- 19) The applicant shall meet all conditions of approval enacted to achieve visual subordination prior to final inspection by the Community Development Department. The applicant is to coordinate all inspections with the Building Division. A final inspection approval will not be issued until compliance with all conditions of approval; including visual subordination criteria have been verified.

Page 4

- 20) The Community Development Department will conduct at least two site visits during construction, one to verify the location of the structures as stated by the Administrative Decision and a second to be conducted after all foundation excavation has been completed including framing footers, but prior to pouring the foundation. A site visit for Final Inspection shall also be conducted. Each inspection may take up to four business days from the time of calling for the inspection. Inspections should be arranged by calling the Building Division inspection line at 509-427-3922.
- 21) The following procedures shall be effected when cultural resources are discovered during construction activities:
- a) Halt Construction. All construction activities within 100 feet of the discovered cultural resource shall cease. The cultural resources shall remain as found; further disturbance is prohibited.
 - b) Notification. The project applicant shall notify the Administrator and the Gorge Commission within twenty-four (24) hours of the discovery. If the cultural resources are prehistoric or otherwise associated with Native Americans, the project applicant shall also notify the Indian tribal governments within twenty-four (24) hours.
 - c) Survey and Evaluations. The Gorge Commission shall survey the cultural resources after obtaining written permission from the landowner and appropriate permits from the DAHP. (See Revised Code of Washington 27.53) It shall gather enough information to evaluate the significance of the cultural resources. The survey and evaluation shall be documented in a report that generally follows the provisions in Section 22.22.030 of this Chapter. Based upon the survey and evaluation report and any written comments, the Administrator shall make a final decision on whether the resources are significant. Construction activities may recommence if the cultural resources are not significant.
 - d) Mitigation Plan. Mitigation plans shall be prepared according to the information, consultation and report provisions contained in Section 22.22.050 of this Chapter. Construction activities may recommence when conditions in the mitigation plan have been executed.
- 22) The following procedures shall be effected when human remains are discovered during a cultural resource survey or during construction. Human remains means articulated or disarticulated human skeletal remains, bones or teeth, with or without attendant burial artifacts.
- a) Halt of Activities. All survey, excavation and construction activities shall cease.
 - b) Notification. Local law enforcement officials, the Administrator, the Gorge Commission, and the Indian tribal governments shall be contacted immediately.

Page 5

- c) Inspection. The county coroner, or appropriate official, shall inspect the remains at the project site and determine if they are prehistoric/ historic or modern. Representatives of the Indian tribal governments shall be contacted immediately and have an opportunity to monitor the inspection.
- d) Jurisdiction. If the remains are modern, the appropriate law enforcement official shall assume jurisdiction and the cultural resource protection process may conclude.
- e) Treatment. The procedures set out in RCW 27.44 and 68.05 shall generally be implemented if the remains are prehistoric/ historic. If human remains will be reinterred or preserved in their original position, a mitigation plan shall be prepared in accordance with the consultation and report requirements set out in Section 22.22.050 of this Chapter. The mitigation plan shall accommodate the cultural and religious concerns of Native Americans. The cultural resource protection process may conclude when conditions set forth in Section 22.22.050(C) of this Chapter are met and the mitigation plan is executed.

Dated and Signed this 11th day of October, 2011, at Stevenson, Washington.

Jessica Davenport, Planning Manager
Planning Division

NOTES

Any new residential development, related accessory structures such as garages or workshops, fences, and additions or alterations not included in this approved site plan, will require a new application and review.

EXPIRATION

As per SCC §22.06.150(A), this Administrative Decision approving a proposed development action shall become void in two years if the development is not commenced within that period, or once development has commenced the development action is discontinued for any reason for one continuous year or more.

If the development does not include a structure the permit shall expire two years after the date the land use approval was granted unless the use or development was established according to all

Skamania County Community Development Department
File: NSA-11-29 (Skamania Co. Dept. of Public Works) Administrative Decision
Page 6

specifications and conditions of approval in the approval. For land divisions, "established" means the final deed or plat has been recorded with the county auditor.

If the development includes a **structure** the permit shall expire when construction has not commenced within two (2) years of the date the land use approval was granted; or once the structure has been started and if the structure has not been completed within two (2) years of the date of commencement of construction the permit shall expire. Completion of the structure for this purpose means the completion of the exterior surface(s) of the structure; and compliance with all conditions of approval in the land use approval, including, but not limited to, painting of the exterior of the structure.

APPEALS

The Director reserves the right to provide additional comment and findings of fact regarding this decision, if appealed.

This Administrative Decision shall be final unless reversed or modified on appeal. A written Notice of Appeal form must be filed by an interested person within 20 days from the date hereof. Appeals are to be made to the Skamania County Hearing Examiner, P.O. Box 790, Stevenson, WA 98648. Notice of Appeal forms and mailing lists are available at the Community Development Department and must be accompanied by a \$1,300.00 nonrefundable filing fee and a Certificate of Mailing.

The final determination of the Environmental Threshold Determination related to this underlying government action can be appealed to a court of competent jurisdiction, along with the underlying government action, only by the parties with standing to the Environmental Threshold Determination. If the underlying government action was exempt from SEPA review, this section does not apply.

WARNING

On November 30, 1998 the Columbia River Gorge Commission overturned a Skamania County Director's Decision 18 months after the 20 day appeal period had expired. You are hereby warned that you are proceeding at your own risk and Skamania County will not be liable for any damages you incur in reliance upon your Administrative Decision or any amendments thereto.
