Dear Mr. Audette,

The Community Development Department issued a final Administrative Decision on September 20, 2011 for the above referenced application. On November 1, 2011 we received a NSA Letter Amendment Application from you requesting some modifications to the approved agricultural buildings. You have requested the following:

Agricultural Barn #1

- To flip Agricultural Barn #1 so that the 40' dimension runs north/ south rather than the 60' dimension.
- To change Agricultural Barn #1 to a Monitor Style design.
- The floor plan for Agricultural Barn #1 indicates that the dimensions of the building will be 40' 1" x 60' 6" rather than 40' x 60', the height of the building will be 22' from top of grade to roof peak.

Agricultural Barn #2

- To change Agricultural Barn #2 to have four bay doors on the north side rather than three bay doors.
- The height of Agricultural Barn #2 will be 22' from top of grade to roof peak.

The Staff Report, Section 22.18.030(A) found the subject property to be topographically screened from all key viewing areas. The proposal was not required to be reviewed under Section 22.18.030 which reviews design proposals for visual subordination. Design changes such as the "Monitor Style", the added bay door, re-orientating Agricultural Barns #1 to have the 40' dimension run north/south, and increasing the height, of Agricultural Barn #1 and #2 to 22' feet in height will not affect scenic resources.

The change to the footprint of Agricultural Barn #1 to 40' 1" x 60' 6" rather than 40' x 60' will not alter the planned use for the building as shown in the agricultural plan and floor plan submitted with the application materials as discussed in the Staff Report, Section 22.12.010(A). The conclusion for that section states, "The proposed sizes of the structures do not exceed the size needed to serve the agricultural use", is not altered by this change to the footprint.

The compatibility of the proposed barns as discussed in Section 22.18.020(A)(2) states: "The applicant is proposing two new agricultural barns, each with a 40' x 60', or 2,400 sq. ft. footprint. Staff conducted research of the Skamania County Assessor's records in order to determine if the proposed development is compatible with the general scale of existing nearby development of a similar nature. Within ¼ mile of the subject property there are 13 barns. One barn was an outlier in size at 13,312 sq. ft. and was not included in the calculations to determine the average size of the barns in the area. The remaining 12 barns have an average size of 1,198 sq. ft. with the largest of these barns at 3,312 sq. ft. The proposed 2,400 sq. ft. barns are within this range and therefore are determined to be compatible." With the altered footprint of Agricultural Barn #1, which is approximately 2,425 sq. ft. in size, the barn will remain compatible with the barns in the nearby vicinity that range in size from 1,198 sq. ft. to 3,312 sq. ft..

Pursuant to SCC §22.06.080(B), a change or alteration to an approved action, if determined to be minor by the Director, may be "deemed consistent with the provisions of this Title and the findings and conclusions on the original application." The proposed requests constitute a minor change; therefore, the original decision shall be amended as stated above.

The revised site plan (see attached page 7) to this Letter Amendment shall replace the one attached to the Administrative Decision. The elevation drawings (see attached pages 8-11) shall be added to the Administrative Decision. The amendment is hereby approved.

All of the original conditions in the Administrative Decision are still valid and shall be complied with. As a reminder, **this letter amendment needs to be recorded at the County Auditor's office prior to issuance of a building permit for the Agricultural Barns.** If you have any questions, please give me a call at 509-427-3900.

Sincerely,

Jessica Davenport
