Dear Mr. Vatovec,

Amendment NSA-10-05-L1 (Votovec)
Page 2

The Community Development Department issued a final Administrative Decision on August 17, 2010 for the above referenced application. On August 14, 2012 our department issued a one-year extension to the approval of your Administrative decision pursuant to SCC Section 22.06.150(B). On February 5, 2013 we received an application for a NSA Letter Amendment from you requesting an amendment to the NSA Administrative Decision in order to alter the location of the approved on-site septic drain field approximately 150 feet south of the location approved on the original site plan. You have been working with a licensed on-site septic system designer and have requested the change in location for the drain field due to the constraints caused by the slope and soil cover thickness.

The new proposed location of the drain field is further from the onsite springs that were addressed in the Sections 22.20.010 and 22.20.020 in the Staff Report for file number NSA-10-05. The new location for the drain field is within the portion of the property that is zoned Small Woodland (F-3), not within the Open Space (OS) designation.

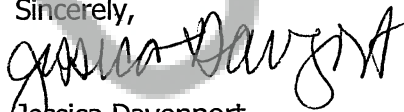

Community Development staff forwarded the proposed modified site plan to Marge Dryden, CRGNSA Heritage Program Manager for her review. She inspected the location for the proposed drain field and the back dirt of the presumed perc test pits. No cultural resources were observed. Ms. Dryden stated in her email to staff dated March 5, 2013 that, "The modification proposed by the applicant will have no effect to any known cultural resources. No further cultural resource work will be required."

Pursuant to SCC §22.06.080(B), a change or alteration to an approved action, if determined to be minor by the Director, may be "deemed consistent with the provisions of this Title and the findings and conclusions on the original application." The proposed request constitutes a minor change; therefore, the original decision shall be amended as stated above.

The revised site plan (see attached page 8) to this Letter Amendment shall replace the one attached to the Administrative Decision. The amendment is hereby approved.

All of the original conditions in the Administrative Decision are still valid and shall be complied with. **This letter amendment shall be recorded in the County Auditor's office prior to the issuance of the On-site Septic permit.** If you have any questions, please contact me at 509-427-3900.

Sincerely,

Jessica Davenport
